## Letter from the Head, Corporate Social Responsibility

As we move into the fifth year of implementation, our resolve and commitment towards sustainability becomes stronger. We want to ensure all our stakeholders that “we care!” We care about the environment, we care about the communities around us, and most of all, we care about being responsible and accountable to all of them.

Every year, we are increasing our outreach, bringing more area and families under our programs to expand circle of positive influence. We always strive for bigger impacts than just money can bring. We hope at least that we should have twice the returns on our investment in social activities. Leading from the front, creating common understanding on the Corporate Social Responsibility (CSR) philosophy amongst my own team and the larger Suzlon Family is my primary responsibility as a Head of Suzlon Foundation.

A clear logic – linking CSR with business interests, a committed and competent team, steadfast partners, supportive Suzlon management and responsive communities have made a range of demonstrable outcomes possible. Being recognized for our work in 2009-10, by the Financial Times and EVI as “Green Business Leader” and by Bombay Chamber of Commerce – 175 year old business federation, for significant contribution to “Social Development” has certainly been very encouraging.

We are fully geared to further integrate sustainability perspective across all business units and engage key stakeholders in sharing CSR responsibility.

Looking forward to your feedback and suggestions on this annual report.

Yours sincerely,

**Seemantinee Khot**

**Head, Corporate Social Responsibility**

## Report background and boundary

This is our second sustainability report. The first report was published for the year 2009-10. This annual report covers the activities conducted during the period April 2010 to March 2011. Our emphasis has always been on offsetting the negative impacts of the business and promoting sustainability. Suzlon Group's vision of "Powering a greener tomorrow" helps us in reaching out to our business units to bring transformation in business practices to make them more responsible.

Suzlon Foundation's responsibility begins with transforming the business policies and practices from sustainability perspective. The most challenging task in evolving business practices to higher levels of eco friendly and ethical standards – is changing mindsets of the huge number of employees towards becoming responsible civil society members. Our philosophy is that it is the people that make the organization, and responsible and ethical people are bound to make responsible and ethical organization.

The report boundary, however, is limited to Suzlon Foundation's programs, projects and activities. It does not encompass the Suzlon Group's business.

Suzlon Foundation being not-for-profit Company involved in developmental activities, most of the indicators laid out in the G3 guidelines are not materially applicable. **This is a self-declared "C" level report as per the GRI G3 guidelines.** Suzlon Foundation is a new company and has started its activities only at the end of year 2007-08. It is our intention to strengthen our foundations first and then gradually progress towards higher level of reporting.

Like last year, the report is a combination of relevant indicators provided in G3 guidelines and the NGO supplement. As Suzlon Foundation is neither involved in any manufacturing processes and nor can be conventionally included in service sector, most of the indicators do not apply to us. Suzlon Foundation partners with different govt, non-govt agencies, educational and other private institutions for the purpose of implementation of CSR programs.

There have been no significant changes in the structure or operations of the Foundation; neither are there any restatements with regard to the previous report.

Suzlon Foundation received CSR award for "Social Development" for 2010 from Bombay Chamber of Commerce.

For the purpose of this report, the contact email id and phone numbers are as given under: [csr@suzlon.com](mailto:csr@suzlon.com)

## SUZLON FOUNDATION

Suzlon Foundation was set up in December 2007 as a Section 25 Company to take care of CSR activities of the Group. Head Quartered in Pune, Suzlon Foundation is mandated to drive CSR and become a leader in spreading the message of sustainability in the corporate world and other forums. We believe any business – even the wind energy business which is considered non-polluting – has some negative impacts. Suzlon Foundation’s first priority is to offset these negative impacts.

Enhancing five capitals – natural, financial, social, human and physical – through stakeholder engagement is the most important aspect of our programs. Forming meaningful partnerships to empower the communities and sustain the CSR initiatives beyond the project period is the main approach in implementing the programs. Engage, empower and sustain are the three pillars on which the Foundation’s CSR is based.

We give very high importance to transparent and inclusive governance practices. We have developed robust monitoring and evaluation procedures to measure our impacts. We believe in being professional in implementation of CSR activities. We have a balance score card just like any other business function and report to the senior management on our performance.

Suzlon Foundation works in the states and locations where Suzlon Companies have their operations. These are – Gujarat, Maharashtra, Rajasthan, Madhya Pradesh, Tamil Nadu, Karnataka, Kerala and union territories of Daman and Pondicherry in India.

### CSR Mission

**“Corporate Social Responsibility at Suzlon means living corporate values with the goal of:**

- Having minimal impact on the natural environment
- Enabling local communities to develop their potential
- Empowering employees to be responsible civil society members
- Committing ourselves to ethical business practices that are fair to all the stakeholders

So that we can collectively contribute towards creating a better world for all”

## STAKEHOLDER ENGAGEMENT

At Suzlon Foundation, we set a very high store by stakeholder engagement. Our important stakeholders and frequency of engagement:

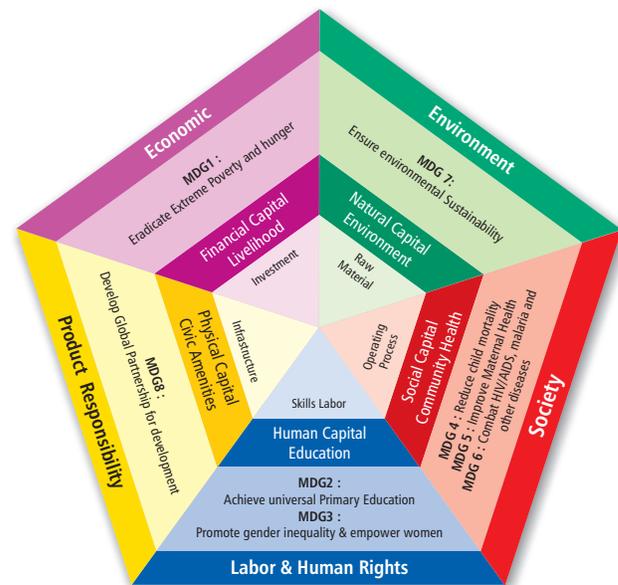

- Suzlon Foundation and Suzlon Group of Companies' management and employees (once in six months during review)  
Neighbourhood communities (once in a quarter through field visits)
- Govt and its agencies (Line departments, local Panchayats, etc.) (once in six months during review)
- Partner non-govt. organizations (NGOs) (Monthly meetings and six monthly reviews)
- Other Institutions / NGOs / Civil society organizations/groups (as and when appropriate)

One might wonder why we have listed Suzlon Group of Companies, its management and employees as our stakeholders since the report is limited to the activities conducted only by Suzon Foundation. This is for two reasons – one is that Suzlon Group of Companies are the donors of funds to Suzlon Foundation and the other is that Suzlon Foundation considers it as its mandate to engage all the employees and involve them in socially responsible activities. Thus, they are at once our partners and our customers.

We continually engage with all our stakeholders and also involve them in our review processes. We have set up a mechanism through our standard operating procedures, for regular interaction with the stakeholders. In fact, we have included the stakeholder engagement in our Key Result Areas in our Performance Appraisal System.

In the year 2010-11 we started an innovative project of multi-stakeholder study of all our projects which will continue through the next year. In the year under reporting, we have completed the study of 10 projects. This analysis will certainly help us to make our engagement with our stakeholders more meaningful and help us improve our programs to make them sustainable.

## Sustainability Framework of CSR

The Sustainability framework above shows that how our programs enhance five capitals, contribute to millennium development goals and fit automatically into GRI subset. We have programs for natural resource management, creating alternative livelihood opportunities, improve sanitation, hygiene and health, improving quality of primary education, empowering communities by forming community based organizations and improving basic civic infrastructure in needy areas.

**We treasure the smiles our efforts invoke**

## RESPONSIVE PROGRAMS

### FIVE CAPITALS:

**Financial capital** : Savings, credit, assets

**Natural capital** : Water, land, air, fauna, flora and like

**Social capital** : Networks and social institutions

**Human capital** : Skills, knowledge and health

**Physical capital** : Roads, transportation, water sources, electricity

## Financial Capital

### Increased income to 71,443 families

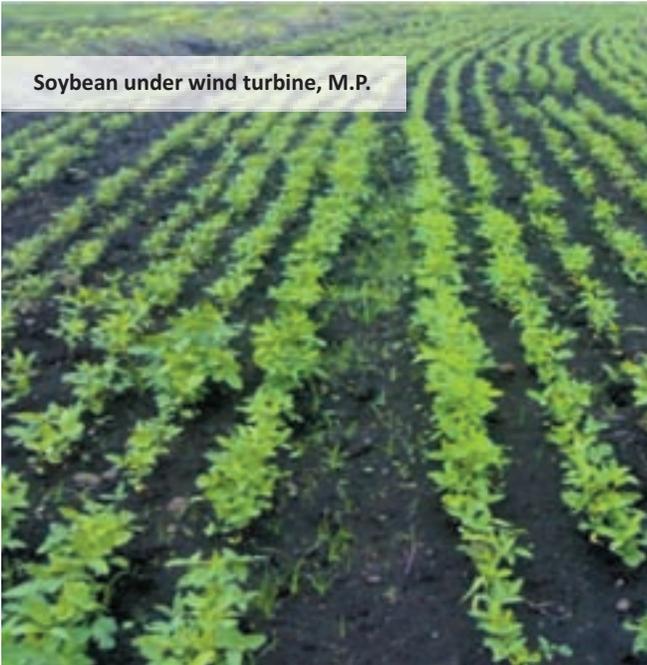

Improving the productive assets and income levels of the local communities is considered as a core responsibility by Suzlon Foundation. Rainfed agriculture and livestock are the main sources of livelihood for the majority of the communities around the wind farms, hence CSR has promoted a holistic approach to livelihood “Integrated Agriculture Based Livelihood Program”. IABLP is being implemented in 5 states in almost all the wind farm neighbourhoods. 80,000 animals receive round-the-year preventive health care and other livestock management inputs to livestock keepers through

regular animal health camps. In Rajasthan our study has reported 15% reduction in livestock mortality. In MP checkdams brought 100 acres land under crops, in Maharashtra and Gujarat farmers reported increased production due to water availability. Approx 400 acres of land is now yielding fodder providing nutrition to livestock. The SHG members have saved Rs. 1.95 crores and accessed credit of over Rs. 3 crores of which nearly 60% is used for agriculture and livestock purposes. This is leading to increased incomes to 71,443 families.

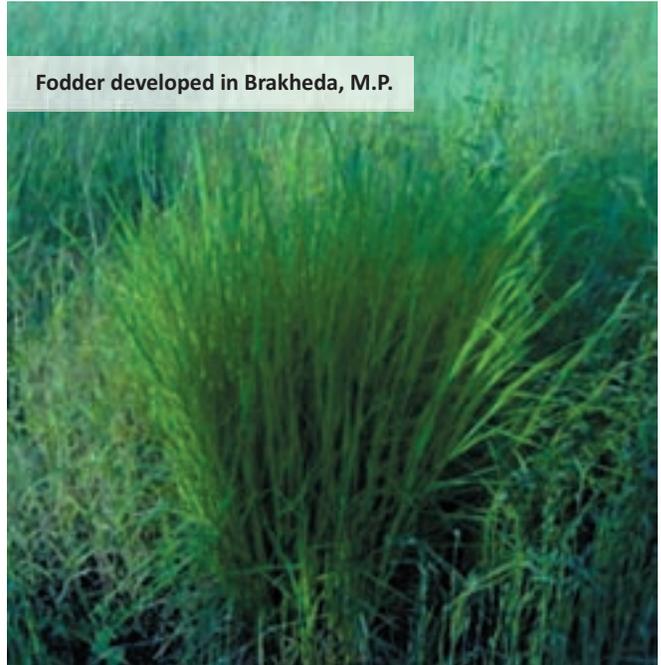

Animal Health Camps in Rajasthan & Tamil Nadu

Soybean under wind turbine, M.P.

Fodder developed in Brakheda, M.P.

System Rice Intensification, Vadodara, Gujarat

Revival of traditional craft, Kutch, Gujarat

## Natural Capital

**Conservation measures on 1642 ha land, 25.33 lakh cu<sup>m</sup> water harvested, 2.33 lakh trees planted during 2010-11**

As responsible custodian of land, Suzlon's CSR promotes Natural Resource Management (NRM) projects such as rainwater harvesting, fodder development, tree plantation. In 2010-11, NRM projects were undertaken on 1,642 hectares of land across 5 major states where Suzlon has wind farms. These projects are undertaken in partnership with CBOs and technical guidance of specialized NGOs. The returns from these projects include increased water and fodder availability, hectare land brought under cultivation, increased crop production. It is heartening to report that in 2010-11, 25,33,851 cu<sup>m</sup> of water could be conserved and 2,33,226 trees could be added to the 8 lakhs planted in previous years.

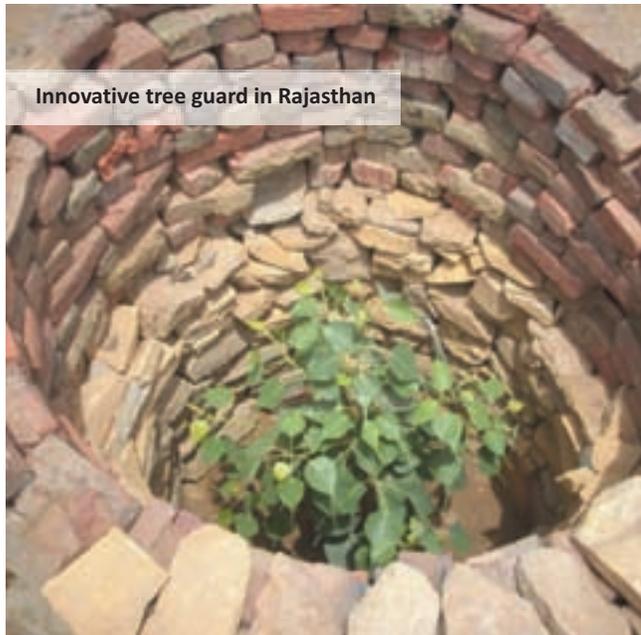

Women watering the vermi compost pit

Celebration of Green Week -  
Environment Awareness Session for school students

Innovative tree guard in Rajasthan

## Social Capital

### 2029 Community based organizations formed and 20,106 community members empowered

Suzlon's CSR is based on the premise that unless communities are aware and organized, businesses will not be secure in the long run. Suzlon's CSR operations are designed in consultation with community based organizations (CBOs). In 2011-12, Suzlon Foundation worked with 2,029 such CBOs on various developmental activities. These include 1746 Self Help Groups (SHG) and 283 Village Development Committees, user groups and producer cooperatives etc. The Foundation invests considerable time and effort in strengthening CBOs, so that they are inclusive and democratic. Every neighborhood village of Suzlon today has atleast one vibrant forum of locals, committed to village development. There are 20,106 aware community members who lead the development initiatives, and half of them are women.

Farmers' ready to donate labour to de-silt the Nadi

Building harmony - Women playing games

## Human Capital

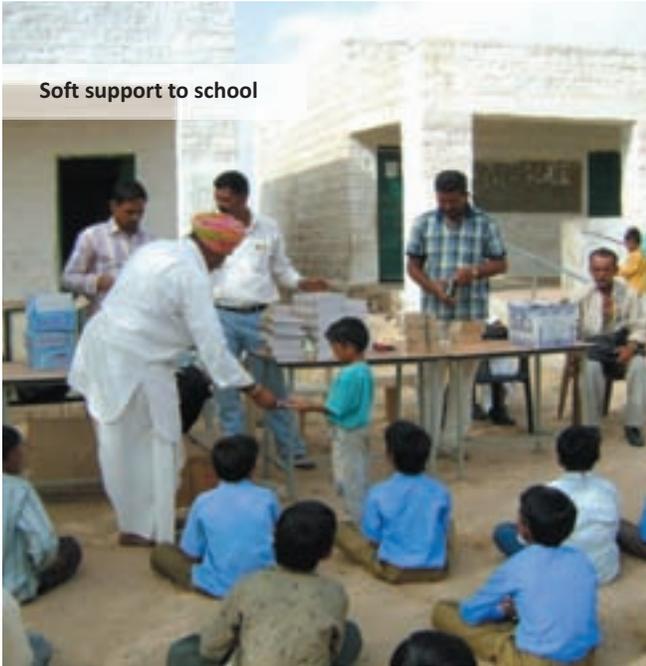

### **51,500 students in 471 schools had better learning opportunities through our inputs 85,569 individuals benefitted through our community health programs**

Suzlon Foundation's efforts to contribute to education reached out to 51,500 students over 800 villages through 471 schools; these included teachers' trainings, introducing basic technologies in school, providing teaching aids, setting up/stocking libraries and upgrading school infrastructure to provide qualitative environment for primary education. Increasing employability of local youth is a high priority of Suzlon Foundation, as the wind farms do not have the potential to fulfil expectations of jobs to local communities. Currently 1960 students in Maharashtra are receiving technical education in schools and in Gujarat 1770 students are benefitting from environmental education and life skills. The Community Health programs benefitted over 85,569 individuals from preventive health care, such as better hygiene and sanitation facilities, solid waste management, awareness about communicable diseases and vaccination. Suzlon Foundation believes that a pool of healthy and skilled people is required for a sustainable economy and will continue to reach out to more population by converging with government programs and through creating a cadre of village health workers. Suzlon's Community Outreach program, reached out to 61,856 patients, 19 doctors and 20 mobile clinics in 2011-12; which has helped resource poor families save health care cost of upto Rs. 92,78,400/-

Scientific toy making workshop for teachers

Soft support to school

TB Club meeting

Global Hand Washing Day with anganwadi teachers

Eye Camp

## Physical Capital

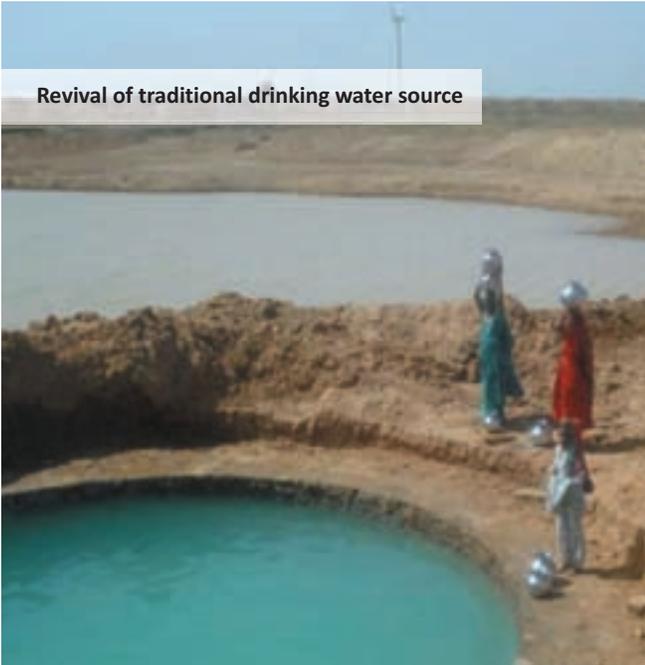

### 40,556 families benefiting from improved basic civic amenities

Civic amenities and services help improve efficiency of people. Most of the wind-farm neighbourhood villages lack basic infrastructure for sanitation, drinking water and electricity. Hence Suzlon Foundation has supported 846 remote villages in reviving drinking water sources providing solar electricity and improving sanitation. 143 drinking water sources have either been revived or generated. 1017 units of sanitary blocks and soak pits to improve sanitation have been built through project support. 978 households now have solar electricity improving their standard of living. 50 commodity stores have been set up for easy and cheaper access to necessities. 17 computer and library centres are helping improve knowledge base of 1000 families. Basic infrastructure of 11 schools has been improved facilitating better learning atmosphere for the students.

Improved school infrastructure

Revival of traditional drinking water source

Distribution of Solar Lanterns

Distribution of drums to store grains

**Adding colour to the lives of thousands across the country even these blind children**

## TRANSFORMATIVE PROGRAMS

Transformative CSR forms a significant part of our programs. We encourage employees to get involved in CSR activities. Employees have participated whole-heartedly in many such programs in various states.

Most important part of transformative CSR is to change the business practices so that they are more responsible and sensitive to stakeholders. 2010-11 focused on integrating the CSR perspective in land procurement and infrastructure development. CSR teams are now involved in facilitating multi-stakeholder meetings prior to wind turbine erections. CSR projects are planned in consultation with the concerned communities.

In a blood donation drive which is held on 2nd February every year, 2777 bottles of blood were collected across all locations and donated to various blood banks

**Sowing seeds of prosperity for the future of India**

## PROACTIVE PROGRAMS

Foundation is not directly at risk due to climate change, as it is not in manufacturing or industrial sector. However, due to the cascading effects in the manufacturing sector, its finances may be affected as it is dependent on the funding given to it by Suzlon Group of Companies. Though Suzlon Energy Ltd, the parent company of the group is in renewable energy sector, its own manufacturing process is just like any other industrial product. Thus, for the parent company, Climate Change poses both – risk and opportunities. There may be greater demand for renewable energy due to the awareness about global warming, but at the same time demand may get affected by the risks to industry as the customer base is other industrial corporations.

To Suzlon Foundation, Climate Change presents many opportunities to create awareness and take up initiatives in prevention and response.

In 2010-11 we supported a network of Climate Change Combating in South India. It consists of over 50 NGOs which have networked to take concrete actions to help vulnerable sections of society cope better with climate changes. The best practices discussed will be superimposed in Suzlon Foundation's current CSR projects. A very important International Conference on Climate Change was organized in Pune, in which Suzlon Foundation was a co-sponsor.

**Convention on Climate change**

A unique campaign was supported by the foundation this year. In a mass campaign of 100,000 trees planted on a single day, 35,000 trees were planted by differently-abled individuals. This was done within one hour across 425 locations in Tirunelveli [the information is sent to the Guinness Book of World Records]. Suzlon Foundation also partnered with three Academic Institutions for Carbon Footprint offsetting. Additionally, we had five international interns from Sweden, Belgium and Dubai over the year to promote youth development, international peace and cultural diversity.

**International Interns with Foundation team members**

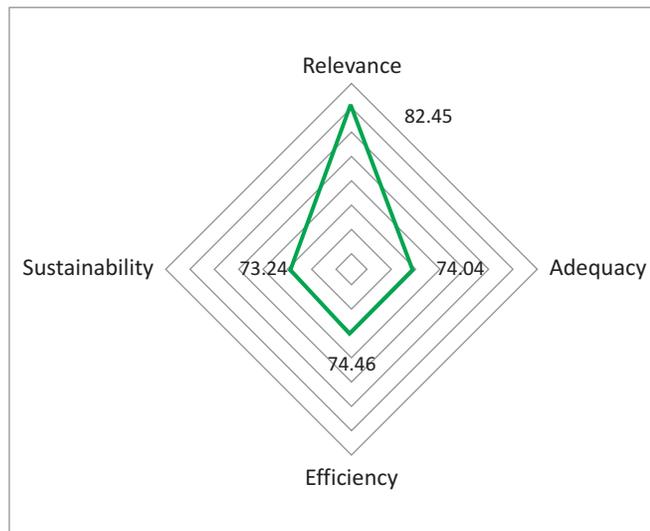

**Safety training at Daman**

## GOVERNANCE AND OPERATIONS

Suzlon Foundation gives high importance to accountability and transparency. In order to engage and consult key stakeholders, the Foundation carries six-monthly 360 degree assessment of 100% partner projects. The scores given by different stakeholders for four crucial aspects which are relevance, adequacy, efficiency and sustainability are as below.

As can be seen, there is very small difference in the rating given to different parameters. Relevance is higher than the rest. There is no doubt at all in the minds of different stakeholders about the relevance of the programs undertaken. As we strengthen our program delivery, we will strive to further the rating of the other parameters to bring them at par with relevance. This review is part of our elaborate M&E process. Our programs are flexible enough to accommodate the decisions and improvisations due to dynamic situations. They also have inherent component of gender as empowerment of communities is within our mission statement.

Though we do regularly engage with national / international level peers of CSR, we do not actively get into advocacy. However, there are various forums on which the Suzlon Foundation Head voices her opinions on land acquisition related issues. Suzlon Foundation considers that changing the land purchase policy at Suzlon is one of the most important transformative initiatives to take.

We consider Suzlon's top management and employees as our customers as one of our responsibilities is also to build rapport with the communities so that the business can be run smoothly and the incidences of friction with the community go down. We have a stakeholder survey, through which we assess the feedback on satisfaction level with our programs.

We have a very elaborate process of stakeholder mapping. Our programs begin with the group that is mostly affected by Suzlon Group's business operations and then expand to encompass other needy groups in the communities. The adequacy part in our review rating considers both – whether the outreach is enough to bring the desired impact and whether all the needy within the project areas have been reached out to.

### Team

Our team is indeed our driving force. Total strength of the team during 2010-11:

On roll employees	:	9
Associate Company	:	4
On contract	:	8
Interns	:	6
<b>Total</b>	:	<b>27</b>

Out of the above 14 were male and 13 were female employees. The age-wise distribution is:

Between 20-35	:	17 Nos.
Between 36-50	:	6 Nos.
Above 50	:	4 Nos.

Region-wise distribution is:

Corporate Office, Pune	:	13 Nos.
Rajasthan	:	6 Nos.
Maharashtra	:	1 No.
Tamil Nadu (including Coimbatore SEZ)	:	1 No.
Karnataka (including Padubidri SEZ)	:	2 Nos.
Pondicherry	:	2 Nos.
Daman	:	1 No.
Gujarat (including Waghodia SEZ)	:	1 No.
Madhya Pradesh	:	NA

As we have a very small team, we have not categorized them according to minority groups or applied other diversity indicators. However, it is a very gratifying fact that senior management of Suzlon Foundation consists entirely of females.

Since Suzlon Foundation is not engaged in any manufacturing activity but in corporate social responsibility activities, the most significant impact it has on the environment is through the GHG emissions from the travel and commuting of its employees – mostly air travel of three senior management members. Since the team is small and stretched to accomplish many things in short period, air travel becomes inevitable.

### Employee travel - monthly average

Distance (in km) by:	2010-11	2009-10
----------------------	---------	---------

#### International travel by air

#### Domestic Travel by air

2-wheeler	:	131	200
3-wheeler	:	67	75
4-wheeler	:	404	580
Bus	:	519	440
Train	:	549	840

<b>Total emissions by air for the year</b>	:	<b>16.2 CO2e</b>	<b>16.4 CO2e</b>
--	---	------------------	------------------

<b>Total emissions by employee commuting and other travel for the year</b>	:	<b>74.52 CO2e</b>	<b>70.7 CO2e</b>
--	---	-------------------	------------------

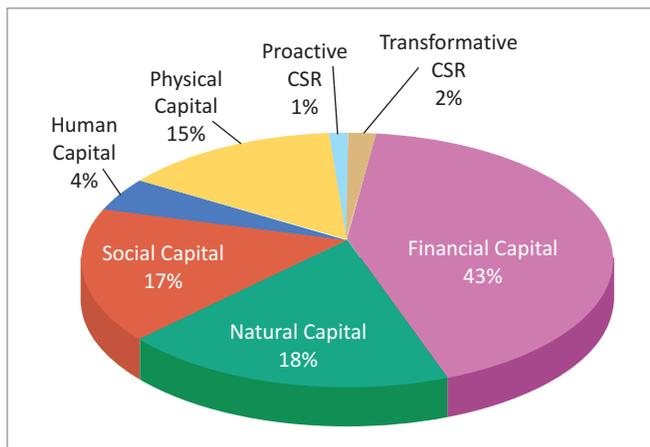

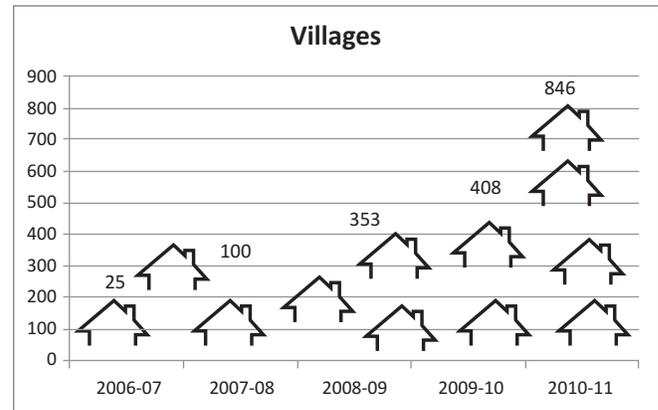

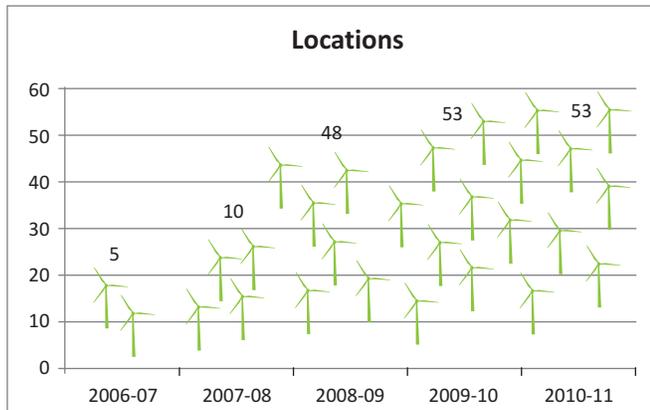

Our emissions for other than air travel though in total have increased fractionally; have come down per person from 311 kg to 230 kg per month. Thus, the total emissions (230 kg x 12 months x 27 employees) are 74.52 CO2e. We have been able to control the travel by reducing the overall budget and capping the opex percentage to total budget to 15% including salaries of the staff.

Suzlon Foundation has a partnership approach and works with many agencies for the implementation of CSR programs. It has a very stringent procedure for selection of partners and only agencies with highest credibility are selected as partners. Since most of these are NGOs, they are proponents of upholding human rights and thus, we do not find it necessary to have a separate mechanism to check whether there are any human rights violations. We do not work with suppliers as such as we are not in manufacturing sector or in conventional service sector.

Suzlon Foundation's Board of Directors consists of three members: Mrs. Gita Tanti, Mr. Ranjitsinh Parmar and Mr. Harish Mehta. The board however does not look actively in to its operations and does not regularly meet and there are no mechanisms for feedback to the Board. The governance of operations is left to the Suzlon Foundation Head i.e. Ms. Seemantinee Khot. Its Executive Director Mr. Girish Tanti left office during the course of the year. None of the board members are in the Executive Body.

## OUR OUTREACH AND FINANCIALS

### Budget Utilization

In the FY 2010-11, Suzlon Foundation received Rs. 6.40 Crores from parent company SEL, its subsidiaries, and other promoter companies.

Besides the Suzlon funds, financial resources leveraged from Government and other sources were worth Rs. 2.80 Crores, which was 53.56% of CSR programs costs. Additionally, Suzlon employees contributed Rs. 28 lakhs towards various philanthropic programs, such as running a complimentary school, river cleaning drives, support to orphanages and blind people's homes etc. Besides, there are over a 100 champions across different functions, who give substantial time for CSR activities. In the Global Headquarters of Suzlon in Pune, 191 Suzlonians have regularly volunteered, and there are over 500 more employees across various locations in India who have volunteered time and given in kind contribution to CSR programs.

**FORM NO. 10B**  
**[See Rule 17B]**

Audit Report under section 12A (b) of the Income-tax Act, 1961 in the case of charitable or religious trusts or institutions

I have examined the balance sheet of **Suzlon Foundation** as at **March 31, 2011** and the Income and Expenditure Account for the year ended on that date which are in agreement with the books of account maintained by the said trust or institution.

I have obtained all the information and explanations which to the best of my knowledge and belief were necessary for the purposes of the audit. In my opinion, proper books of account have been kept by the head office and the branches of the above-named trust visited by me so far as appears from my examination of the books, and proper returns adequate for the purposes of audit have been received from branches not visited by me, subject to the comments given below:

In my opinion and to the best of my information, and according to information given to me the said accounts give a true and fair view: -

- i. in the case of the balance sheet of the state of affairs of the above-named section 25 company as at March 31, 2011 and
- ii. in the case of the income and expenditure account, of the surplus or deficit of its accounting year ending as on March 31, 2011.

The prescribed particulars are annexed hereto.

## AUDITORS' REPORT

1. We have audited the attached Balance Sheet of SUZLON FOUNDATION, as at 31st March 2011 and the Income and Expenditure Account of the Company for the period ended on that date, annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosure in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. The Companies (Auditor's Report) Order, 2003 will not be applicable to this company as the company is licensed to operate under section 25 of the Companies Act, 1956.
4. Further we hereby report that:
  - (i) We have obtained all the information and explanations, which, to the best of our knowledge and belief were necessary for the purposes of our audit;
  - (ii) In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
  - (iii) The Balance Sheet and the Income and Expenditure Account dealt with by this report are in agreement with the books of account;
  - (iv) In our opinion, the Balance Sheet and the income and expenditure account dealt with by this report comply with the Accounting Standards referred to in sub-section (3C) of Section 211 of The Companies Act, 1956;
  - (v) On the basis of written representations received from the directors and taken on record by the Board of Directors, we report that none of the directors is disqualified as on 31st March, 2011 from being appointed as a director in terms of clause (g) of sub-section (1) of Section 274 of the Companies Act, 1956;
  - (vi) In our opinion and to the best of our information and according to the explanations given to us, the said accounts give the information required by The Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:
    - a. In the case of the Balance Sheet, of the state of affairs of the Company as at 31st March, 2011 and
    - b. In the case of the Income and Expenditure Account, of the excess of Expenditure over Income for the year ended on that date.

## SUZLON FOUNDATION

### SCHEDULE 10 : Significant Accounting Policies and Notes to accounts

#### 1. COMPANY OVERVIEW

Suzlon Foundation ('Suzlon Foundation' or 'the Company') was incorporated under section 25 of the companies act 1956 on 27th December, 2007.

The Company is established with the object of carrying out welfare and charitable activities in relating to rehabilitation, health and medical, hygiene, nutrition, education, civic amenities, infrastructure, livelihood skills, climate changes and global warming resolution initiatives.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

##### a) Basis of accounting

The financial statements are prepared under the historical cost convention, on accrual basis of accounting to comply in all material respects, with the mandatory accounting standards as notified by the Companies (Accounting Standards) Rules, 2006 ('The Rules') and in conformity with accounting principles generally accepted in India ('Indian GAAP') as applicable, and the relevant provisions of the Companies Act, 1956 ('the Act'). The accounting policies have been consistently applied by the Company; and the accounting policies not referred to otherwise, are in conformity with the Indian GAAP.

##### b) Use of Estimates

The presentation of financial statement in conformity with the generally accepted accounting principles requires estimates and assumptions to be made that may affect the reported amount of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ with those estimates.

##### c) Revenue Recognition

Donations are recognised as income as and when it is received by the company. The interest income is recognised in books on accrual basis of accounting.

##### d) Fixed Assets

Fixed assets are stated at cost, less accumulated depreciation. Cost includes all expenditure necessary to bring the asset to its working condition for its intended use.

##### e) Depreciation

Depreciation is provided on the written down value method (WDV), unless otherwise stated, pro-rata to the period of use of assets and is based on management's estimate of useful lives of the fixed assets or intangible assets or rates specified in schedule XIV to the Act, whichever is higher :

Type of Assets	Rate
Computers	40%

##### f) Foreign currency transactions

Transactions in foreign currencies are normally recorded at the exchange rate prevailing on the date on which the transaction occurred.

Exchange differences arising as a result of the above are recognised as income or expense in the Profit and Loss Account, including the amount of liabilities incurred for acquiring imported fixed assets, where the differences are also charged to Profit and Loss account in compliance with the Accounting Standard as issued by Institute of Chartered Accountants of India.

**g) Employee benefits**

Retirement benefits to employees comprise of Provident fund, gratuity and leave encashment under the schemes of the company.

Defined contributions to provident fund are charged to profit and loss account of the year when the contributions to the respective funds are due. There are no other obligations other than contribution payable to the respective statutory authorities.

The Company has taken a Group Gratuity cum Life Assurance Policy from Life Insurance Corporation of India. The yearly contribution as determined by the LIC on actuarial basis under this policy / scheme has been paid during the Financial Year and debited the same to Profit & Loss Account.

Leave encashment is accounted on actual payment basis.

**h) Provisions, Contingent Liabilities and Contingent Assets**

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

**i) Income Tax**

Provision for income tax, fringe benefit tax and deferred tax has not been made in accounts, as the company has been recognised and registered under section 2(15) and section 12-AA of the Income Tax Act, 1961.

3. Additional information pursuant to the provisions of paragraphs 3, 4B, 4C, 4D of part II of the Schedule VI of the Companies Act, 1956 not applicable to the company.
4. Prior year amounts have been reclassified wherever necessary to confirm with current year presentation. Figures in the brackets are in respect of the previous year.

## FOCUS FOR 2011-12

Internally, Suzlon Foundation will further increase its emphasis on CSR integration in all the Business Units in 2011-12. The Foundation will facilitate the integration of triple bottom line perspective in all major functions. Increasing employee involvement in CSR will be a priority in the coming year.

Externally, Suzlon Foundation will strengthen existing partnerships at the grassroots levels which includes partnerships with the communities, who are proactively involved in initiatives for constant development with the government for schemes which have complimented our programs by facilitating better returns and with NGOs who have worked closely with the communities. Suzlon Foundation will also look at building new long-term partnerships for sustainable projects at new locations like Karnataka and Andhra Pradesh, and new sites at existing locations.

At the community level, efforts will be made to build financial sustainability of community based organisations through strategic inputs for revenue sources, institution building and leveraging government schemes. For this it will be important to strengthen local leadership in communities to facilitate democratic decision making and developing an approach engaging and benefitting all sections of community. Highest priority will be given to livelihood enhancement projects, so that standard of living of socio-economically disadvantaged families significantly improves.

## GRI PERFORMANCE INDICATORS

### GRI performance indicators

The page number on which the relevant information relating to a particular indicator in addition to the given below can be found in the report is indicated below each indicator title. Those who want more details can refer to the referred page of the annual report.

**EC1 - Direct economic value generated and distributed, including revenues, operating costs, employee compensation, donations and other community investments, retained earnings, and payments to capital providers and governments**

*Page No. 33*

**EC2 - Financial implications and other risks and opportunities for the organization's activities due to climate change**

*Page No. 31*

**EN29 – Significant environmental impacts of transporting products and other goods and materials used for the organization's operations, and transporting members of the workforce**

*Page No. 29*

Calculations are based on the 'Greenhouse Gas Protocol' transport tool, as advised by the GRI guidelines.

**EN18 - Initiatives to reduce greenhouse gas emissions and reductions achieved**

Since Suzlon Foundation is neither in manufacturing nor in service sector, we have included under this indicators the activities that we conduct for increasing awareness for climate change. In fact, all our programs like IABLP or hygiene-sanitation or soil and water conservation address climate change issue at micro level. These are explained in the course of the report wherever relevant.

**EN30 - Total environmental protection expenditures and investments by type**

Our program utilization chart explains the expenditure incurred under enhancement of natural capital. However, all our programs have cross cutting themes and in fact contribute to the protection of the environment.

**LA1 - Total workforce by employment type, employment contract, and region**

*Page No. 29*

**LA13 - Composition of governance bodies and breakdown of employees per category according to gender, age group, minority group membership, and other indicators of diversity**

*Page Nos. 29 and 30*

**HR2 - Percentage of significant suppliers and contractors that have undergone screening on human rights and actions taken**

*Page No. 30*

We have considered the NGO partners we work with as our suppliers. At the partner selection time itself, they go through a stringent evaluation. Also, our CSR Managers are continually visiting the partners and are aware of the staffing patterns. So far, we have not found any cases of human rights violation.

**SO1 - Nature, scope, and effectiveness of any programs and practices that assess and manage the impacts of operations on communities, including entering, operating, and exiting**

The basis of our CSR is offsetting the negative impact of our (Suzlon) business. Hence, all our programs are designed in a way to address

these issues. The programs have been explained in the course of the report.

**PR5 - Practices related to customer satisfaction, including results of surveys measuring customer satisfaction**

*Page No. 21 to 25 and 28*

360 degree review of our projects is one of the mechanisms to assess the satisfaction level of our stakeholder. Another is stakeholder survey.

**NGO1 – Processes for involvement of affected stakeholder groups in the design, implementation, monitoring and evaluation of policies and programs**

*Page No. 28*

Our process of review (360 degree) ensures that we look at the success of our projects from all angles. This includes inclusion of various stakeholders such as govt. Representatives, other institutions, other corporate CSR representatives, Suzlon Business Unit representatives, etc. In the review. They are officially invited to the review and field visit to project areas. They are then asked to rate the project. The ratings are then averaged to find out how we have performed on each project.

Another important stakeholder is Suzlon employees. One of the key result areas in the performance assessment of CSR managers is the number of employees engaged in CSR activities and number of hours of engagement. Thus, we place a very high importance on engaging with the employees.

**NGO2 – Mechanisms for feedback and complaints in relation to programs and policies and for determining actions to take in response to breaches in policies**

We continually engage with our stakeholders. Hence, there is ample opportunity for them to voice their unhappiness if any to us. We encourage criticism and improvise programs as per the dynamic needs of the business and communities. At community level, there are engagements with CBOs and Gram Panchayats, at business level, there is participation in the management reviews. Thus, we get feedback from communities, business representatives, the CSR managers in locations and NGO partners and their field staff. The NGOs can also voice their issues in the quarterly reports and monthly interactions with the CSR Managers.

**NGO3 – System for program monitoring, evaluation and learning (including measuring program effectiveness and impact), resulting changes to programs, and how they are communicated**

Already explained above.

**NGO4 – Measures to integrate gender and diversity into the program design and implementation, and the monitoring, evaluation, and learning cycle**

We work with the poorest of poor and the marginalized families affected by our business. We work through CBOs and ensure that there is equal participation from women. Though we do not have an official policy, gender is the underlying theme in all our programs. As we are working with more than 1000 women self-help groups, this is amply demonstrated.

**NGO5 – Processes to formulate, communicate, implement, and change advocacy positions and public awareness campaigns**

Suzlon Foundation is a political organization and does not engage in any advocacy actively. Though Suzlon Foundation Head, Ms Khot is invited to participate in many forums and may voice her opinions, officially Suzlon Foundation does not get involved in advocacy.

## GRI standard disclosures

**1.1 Statement from the most senior decision maker of the organization about the relevance of sustainability to the organization and its strategy.**

Page No. 1

**2.1 Name of the organization**

Suzlon Foundation

**2.2 Primary brands, products, and/or services**

Page 3

**2.3 Operational structure of the organization, including main divisions, operating companies, subsidiaries, and joint ventures**

Suzlon Foundation does not have any subsidiaries. It has partners for implementation of projects. The details are given in the annexure at the end of this report.

#### 2.4 Location of organization's headquarters

Page 4

Suzlon One Earth, Pune, Maharashtra, India

#### 2.5 Number of countries where the organization operates

Suzlon Foundation operates only in India.

#### 2.6 Nature of ownership and legal form

Page 4

#### 2.7 Markets served (including geographic breakdown, sectors served, and types of customers/beneficiaries)

Page 4

#### 2.8 Scale of the reporting organization.

Suzlon Foundation had 27 team members (including interns) during the period.

Financial details can be found on page Nos. 32 through 44

#### 2.9 Significant changes during the reporting period regarding size, structure, or ownership.

There were no significant changes during the period.

#### 2.10 Awards received in the reporting period

Page 2

#### 3.1 Reporting period (e.g., fiscal/calendar year) for information provided

Financial year April 2010 to March 2011

#### 3.2 Date of most recent previous report (if any)

Year 2009-10 report published in October 2010

#### 3.3 Reporting cycle (annual, biennial, etc.)

Annual

#### 3.4 Contact point for questions regarding the report or its contents.

- Send an e-mail to [csr@suzlon.com](mailto:csr@suzlon.com)
- Call Suzlon One Earth at +91 (0)20 40122000 and ask for Suzlon Foundation
- **Send mail to**

Opposite Magarpatta City  
Hadapsar, Pune-411028  
India

#### 3.5 Process for defining report content

The processes for determining materiality and identifying stakeholders are discussed on page 6.

#### 3.6 Boundary of the report

Page 2

#### 3.7 State any specific limitations on the scope or boundary of the report

Page 2

#### 3.8 Basis for reporting on joint ventures, subsidiaries, leased facilities, outsourced operations, and other entities that can significantly affect comparability from period to period and/or between organizations

Standalone company; operates only in India.

#### 3.10 Explanation of the effect of any re-statements of information provided in earlier reports, and the reasons for such re-statement (e.g., mergers/ acquisitions, change of base years/periods, nature of business, measurement methods).

No restatements

### 3.11 Significant changes from previous reporting periods in the scope, boundary, or measurement methods applied in the report.

No changes

### 3.12 Table identifying the location of the Standard Disclosures in the report.

This table can be found in Annexure 1.

### 4.1 Governance structure of the organization, including committees under the highest governance body responsible for specific tasks, such as setting strategy or organizational oversight.

Page No.30

### 4.2 Indicate whether the Chair of the highest governance body is also an executive officer (and, if so, their function within the organization's management and the reasons for this arrangement).

Page No. 30

### 4.3 For organizations that have a unitary board structure, state the number of members of the highest governance body that are independent and/or non-executive members.

Page No. 30

### 4.4 Mechanisms for shareholders and employees to provide recommendations or direction to the highest governance body.

Since the board has been inactive, no mechanisms or structures for employee or stakeholder feedback to the board have been developed. All matters related to how Suzlon Foundation is run are handled by senior management.

### 4.14 List of stakeholder groups engaged by the organization

Page No. 6

### 4.15 Basis for identification and selection of stakeholders with whom to engage.

See first page of this section.
