## MESSAGE FROM SUZLON GROUP CEO

At Suzlon, we are very proud of our Corporate Social Responsibility (CSR) work done in collaboration with multiple stakeholders. Our commitment to CSR is deep-rooted and stems from our unwavering resolve to make a positive and real impact in the society.

Since inception, sustainable development is at the core of all our business operations. The guiding principle for our CSR outreach is to create programs and initiatives that engage, empower and sustain. CSR for Suzlon is a work of passion that is closely integrated with our business ethos and the Sustainable Development Goals (SDGs).

We have always been conscious that the issues are immense and unless we converge our knowledge, skills and resources; the task at hand is mammoth. I am glad to see that the collaborative approach and partnership built with our employees, NGO partners, neighbourhood communities, local Government institutions, our customers and other organizations has resulted in effective and impactful CSR programs.

I am happy to see the far reaching results of that in the programs undertaken across more than 800 villages Pan-India.

The “zero program” has been our flagship programs. The ‘zero cataract programs’ for the most neglected section of the society namely the senior citizens has provided sight to over 7700 persons so far, the ‘zero darkness programs’ that light up lives of over 2900 needy and the ‘zero garbage programs’ that address the root cause of pollution and ill-health has managed 12.6 tons of rural waste innovatively. Further, climate change is a critical issue and Suzlon has been at the forefront of contributing towards mitigating the risks and preventing environmental degradation. Apart from leading the transition from fossil fuels to renewable energy sources such as Wind, we also undertake solution-based interventions at the local level to protect the environment and the bio-diversity across all our areas of operations. With the objective of enhancing the natural capital, we have implemented simple solutions for the declining population of birds in the form of bird nests, water troughs and feeders.

Our sustained efforts of empowering communities to address their own developmental needs resulted in the form of over 553 Village Development Committees (VDCs) which are actively working towards positive socio-economic changes at the regional level. I am pleased to note that VDCs are progressing in the right direction.

I have always believed in investing in the people who make a difference and we at Suzlon are very happy to provide all the support for our enthusiastic and skilful employee volunteers.

The need of CSR services for the communities in India is huge and we can only achieve success if we innovate and find new ways of doing things differently. I am aware that there has been a lot of cross sharing of various innovations done under Suzlon CSR and some are well on their way for replication.

Let us continue to collaborate with all our stakeholders like Government and customers amongst others who have the same social vision of creating a better life for future generations.

Let us put our heads and hearts together to accelerate the change that we are trying to bring about and reach more in lesser time. I urge you to move ahead rejuvenated, energized and carry the learning’s of last year for transformation in the Financial Year 2019-2020 (FY20).

I look forward to more impactful CSR and sustainability programs with the single-minded focus on ‘powering a greener tomorrow’.

Thank You!

**Mr. J.P Chalasani** (Group Chief Executive Officer)

## MESSAGE FROM SUZLON FOUNDATION HEAD

**Dr. Jasmine Gogia**

Head- Suzlon Foundation

OneEarth, Opp.Magarpatta City,  
Hadapsar, Pune - 411 028, Maharashtra, India

[www.suzlonfoundation.org](http://www.suzlonfoundation.org)

The Suzlon Foundation CSR Annual Report 2018-19 is the composition of the work undertaken during the fiscal year and illustrates the convergence of thoughts, ideas, processes and initiatives taken by a different set of stakeholders coming together with Suzlon in this development journey called Suztain. This report had been possible with collective action and wisdom of all the stakeholders, and I thank them immensely!

I thank our Board of Directors for their ceaseless guidance and investment in this journey. I gratefully acknowledge the contribution of all the business teams and employees in our endeavours during the year.

I highlight and appreciate the role of our project implementing partners, with whom we have built a relation on the spirit of collaboration and co-created this journey. Their vision and determination to implement impactful solutions with community members in a democratic and participatory manner have created a strong bond that goes beyond the fund based relationships.

I thank our legal/secretarial, finance, Human Resources and other support business partners, for driving the compliance and other requirements, helping us to remain committed to the purpose.

I would like to thank Goodera for being associated with us in documenting and supporting with the monitoring and evaluation of the projects.

This compilation of all efforts had been possible due to the cooperation of all the team members of Suzlon Foundation, its partners and business teams.

## ABOUT SUZLON FOUNDATION

Suzlon started its journey in 1995. Today Suzlon is considered as the pioneers in Wind energy solutions providers. Over a journey of 24 years, Suzlon Group has revolutionised and redefined the Renewable Energy sector and has made for itself a distinguished mark in product and technology innovation. Present in 18 countries across Asia, Australia, Europe, Africa and the Americas, Suzlon is powering a sustainable future for tomorrow with its competencies in the wind and solar renewable energy systems. Suzlon's extensive range of robust and reliable products backed by its cutting-edge R&D, with more than two decades of expertise are designed to ensure optimum performance, higher yields and maximum return on investment for its customers.

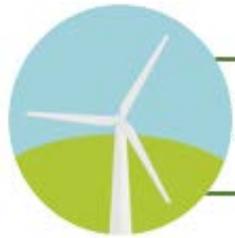

Sustainable development is the principle that drives Suzlon's plethora of initiatives to protect the environment, strengthen communities and drive responsible growth.

Suzlon is headquartered at Pune in western India. The headquarter office, One Earth, is a Platinum LEED (Leadership in Energy and Environment Design) certified building. It is also accredited to GRIHA 5-star rating and is considered to be one of the greenest corporate campuses in the world.

Suzlon Foundation began its journey in December 2007. Registered as a section 8 non-profit organisation, Suzlon Foundation was setup to direct the CSR activities of Suzlon group. We work with the motto of **'Sustainable Development for Sustainable Economy'**, thus working in tandem with the Group's vision of **"Powering A Greener Tomorrow"**. Suzlon Foundation ensures that the Group incorporates sustainability as a guiding principle in their business policies and practices. By ensuring this synergy and understanding the reach and capacity of the Group, the Foundation has categorised each of the activities conducted under the umbrella of CSR into one of six thematic areas i.e. Environment, Empowerment, Health, Livelihood, Education and Civic Amenities. We believe that sustainability lies at the heart of all our operations and is thus integrated while designing all our CSR projects via collaboration with stakeholders as we progress on our journey over time. This sustainability model of Suzlon Foundation is called **"Suz-Tain"**.

## SUZLON CSR MISSION

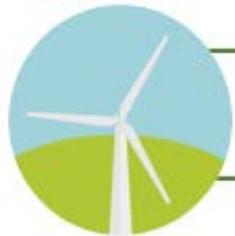

Corporate Social Responsibility at Suzlon embodies its core values in its corporate goals to ensure a better world for all.

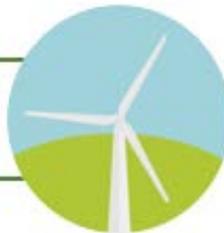

**Having minimal impact on the natural environment**

**Enabling local communities to develop their potential**

**Empowering employees to be responsible civil society members**

**Committing to ethical business practices that are fair to all stakeholders**

## Suz-Tain MODEL

The Suzlon CSR Model is a unique model called 'Suz-Tain' that aligns itself to the Sustainable Development Goals (SDGs). The model has over time evolved from being an existing provider-beneficiary approach for development to be a partnership approach. This new broadened approach brings together local communities, development functionaries, company CSR teams, government departments and NGOs in planning, implementing, monitoring and sustaining village level sustainable development interventions. The approach is implemented through 'Engage-Empower-Sustain' principles of Suzlon CSR. The **primary focus** of the CSR program in the remote rural areas is, to form and strengthen Village Development Committees who would become empowered enough to address the village needs and to steer the development process of the village when Suzlon Foundation's focus exits from the village to unmet strategic development

needs of the area. The basket of interventions is very diverse, unique and customized for each village addressing the needs of the beneficiaries.

The **secondary focus** of the CSR program is to address some necessary needs by 2020 in select villages. These needs are usually unarticulated as they are not recognized as basic needs for most or in situations where stakeholders have remained excluded from the development process. These include the following initiatives:

1. Zero Cataract Blindness initiative for the old
2. Zero Darkness initiative for the women and child
3. Zero Garbage initiative for better environment and health
4. Zero Dependency initiative for the specially abled
5. Zero Sparrow Deaths initiative for the endangered sparrow

To ensure the holistic development of the community, each of the activities conducted under the CSR program are categorized into one of the six thematic areas i.e. Environment, Empowerment, Health, Livelihood, Education and Civic Amenities.

## CSR VALUE CREATION MODEL

Suzlon CSR intends to create an institution of shared value via the following steps:

I. Execute its mission through three types of CSR programs:

**Transformative programs** that ensure that there is minimal negative impact of the business on its surrounding.

- Continual improvements in business practices and procedures from a sustainability perspective, so that there is minimal harm to the natural, social, human, physical and financial resources around it. Initiatives include but are not limited to policy formulations, improving practices around energy/waste management, health and human rights.
- Employee Involvement for creating awareness among the employees about sustainability issues Influencing their attitude and behaviors towards sustainable development. Initiatives include observance of national, international days and volunteering time, skill and funds for environmentally and socially meaningful activities.

**Responsive programs** to offset (even potentially) negative impacts and optimize the positive impacts of business on its surroundings.

**Proactive programs** to contribute towards global development issues and sustainability, by going beyond business boundaries, e.g. combat climate change/ global warming, natural disasters and promote peace and harmony.

II. Focus on sustaining five capital resources:

- Financial
- Natural
- Social
- Human
- Physical

III. Carry out interventions under six thematic thrust areas:

- **Environment** initiatives through (e.g.) plantation, water shed development, access to government schemes for improving, rejuvenating and conserving the natural resources.
- **Livelihood** initiatives for enhancing livelihoods of disadvantaged communities through (e.g.) projects for encouraging self-help, capacity building, livestock development services and micro credit support.
- **Education** initiatives for (e.g.) improving literacy, quality of primary education, vocational and life skill training.

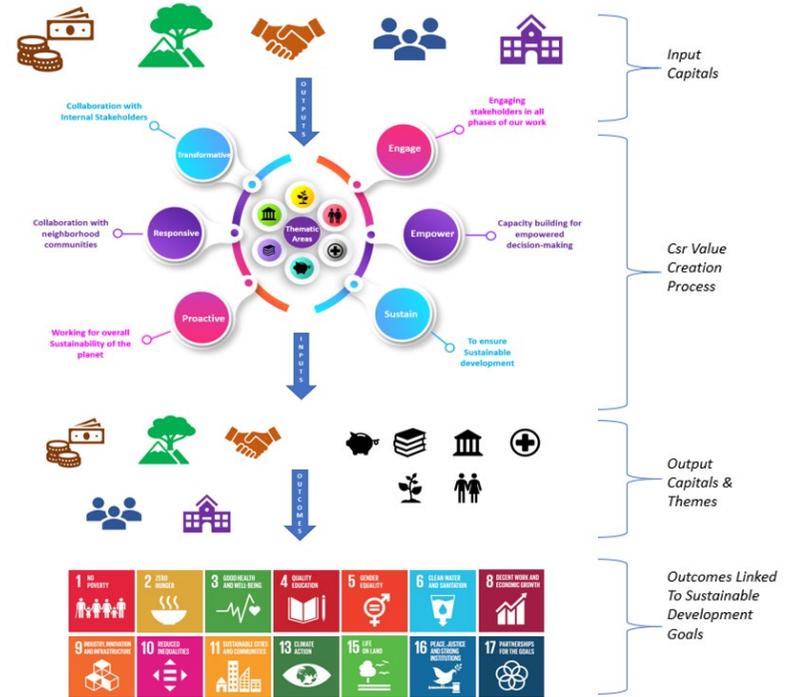

- **Health** initiatives through (e.g.) access to primary treatment, health awareness and commodities for holistic health, not merely absence of diseases but ensuing physical, social, psychological and spiritual well-being.
- **Civic Amenities** initiatives for improving availability and access to amenities and services essential for any community to realize its potential; e.g. sanitation, electricity, housing, transportation, insurance and public distribution systems.

- IV. Implement CSR using empowering approaches by institution building and strengthening.
- V. Collaborate with government institutions, corporate, civil society, industry association and any other organization to foster sustainable development.
- VI. Encourage employee volunteering and involvement.
- VII. Integrate sustainability perspective within the companies' value chain.
- VIII. Work towards making institutions and interventions self-sustaining.
- IX. Use participatory multilevel monitoring and evaluation.
- X. Align with the Sustainable Development Goals (SDGs) and the National Development Programs

**The SDG Era:** Last year we completed 10 years of our inception. Moving ahead on the development journey we endeavor to align all our activities and their outcomes to UN Sustainable Development Goals to be able to track our progress and commitment to contemporary norms on an international level.

**5Ps of Sustainable Development:** In order to make our adherence to SDGs stronger and more coherent, we have adopted a measure to align our six Thematic Areas (Environment, Health, Civic Amenities, Livelihood, Empowerment & Education) to the 5Ps of Sustainable Development, i.e People, Planet, Prosperity, Peace and Partnership. For ensuring the effectiveness of our CSR goal and programs, we at Suzlon ensure all our activities touch at least two of the 5Ps. Collaborating and inculcating different ideas, perspectives and values across geographies and throughout our value chain has helped strengthen our resolve towards building a better future.

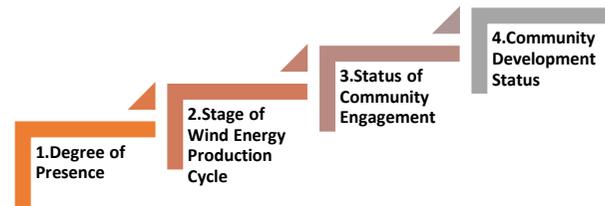

**Suzlon CSR Programme Management:**

We at Suzlon Foundation believe that to ensure the effectiveness and the success of all its programs, it is essential to collaborate and involve all stakeholders in the execution of the programs. A step by step method is undertaken for the careful selection, planning and implementation of all its activities. Suzlon has formed strategies for all the stages of CSR programme implementation and made sure to involve the impacted communities to ensure sustainable growth.

## A. Geography and Program Selection:

We identify focus areas or geographies of priorities for CSR projects based on the four indicators.

All the CSR initiatives are designed in consultation with the Business Units who provides the details for each village on the first three strategic indicators, the fourth strategic indicator of village development status is determined by CSR managers and NGO partner.

We at Suzlon, strategically choose the focus areas based on the immediate, mid-term and long term needs of each village and matching it with available Company resources (financial and material), skills of Suzlonians, skills of implementing NGO partners and

aligning it with the National strategy (like Swachh Bharat, National Blindness Control Program, Energy Security for the Nation and the local Community etc) and the global UN -Sustainable Development Goals. The initiatives are selected based on secondary data of the village profile and primary data from the village level consultation with key persons and other participatory rural appraisal methods.

## B. Project Implementation:

Suzlon uses theory of change framework to define long term goal i.e, making all villages and the village development committees operationally and financially self sufficient. and then maps all the necessary preconditions to achieve it. This framework has been extensively impactful in identifying different stages of village development committees maturation. Also the project implementation is ensured by consulting communities about their requirements, prioritizing them based on resource availability and ensuring community contribution for every intervention.

## C. Monitoring and Evaluation:

Measures and methodologies are formulated to evaluate results of CSR initiatives by using quantitative, qualitative and financial proxies. These results are measured as below

- Short term immediate outputs
- Changes in lives of beneficiaries as outcomes
- Degree of difference of changes as impact
- The social value of difference in the lives of beneficiaries

**i. 360 Degree Evaluation Process –**

For all the CSR initiatives a 360 degree multistakeholder evaluation is conducted annually for every location in all the operational states. The stakeholders consist of villagers, beneficiaries, implementing NGO partners, Suzlon CSR council members, Suzlon customers, Government Officials, other corporates, Development specialist and vendors. This exercise is conducted to know the perception of stakeholder about the results achieved from CSR initiatives. The perception is mapped in terms of scores and testimonials

**ii. Impact Assessment –**

We conduct third party impact assessment for all our CSR initiatives every two years. FY 2017-18, a third party non financial impact assessment was conducted using stratified sampling methodology for all the Suzlon villages in operational states. The findings of evaluation were discussed with Suzlon CEO, COO and CSR team which helped in enhancing CSR project management. The recommendations from this assessment have been integrated in next years strategy and execution.

**D. Sustainability Plan:**

Sustainability of CSR activities is of utmost important to us while executing all the CSR strategies. Therefore all our CSR activities have a in-built sustainability plan which is aligned to business strategy and the wind energy cycle. We aim to create community ownership of CSR projects for their sustainability before they are handedover to community.

***The sustainability of CSR initiatives is ensured by:***

1. Having financial targets in NGO partners plan to bring community contribution in kind and cash for each activity.
2. Forming village development committee/SHGs as institutions for collective action
3. Building sustainable relationship between business and community through employee volunteering
4. Incorporating sustainability scores as one of the parameters to review all CSR programs.
5. Encouraging NGOs and Suzlon Team to develop partnerships and collaborations with various agencies to enhance outreach and impact
6. Converging resources from within and externally through employee donations, customer donations, Government, national and international interns and other corporate resources
7. Using the equipment resources of the company like JCB available during business operations for desilting the pond in the nearest village.
8. Using business waste that are scrapped to make useful educational tools like benches, cupboards and paly material.
9. Using local knowledge in planning and implementation
10. Creating tangible verifiable milestones for the VDC as an institution to sustain with a clear exit strategy after VDC reaches stage 6.

## E. Grievance Redressal Mechanism at CSR sites

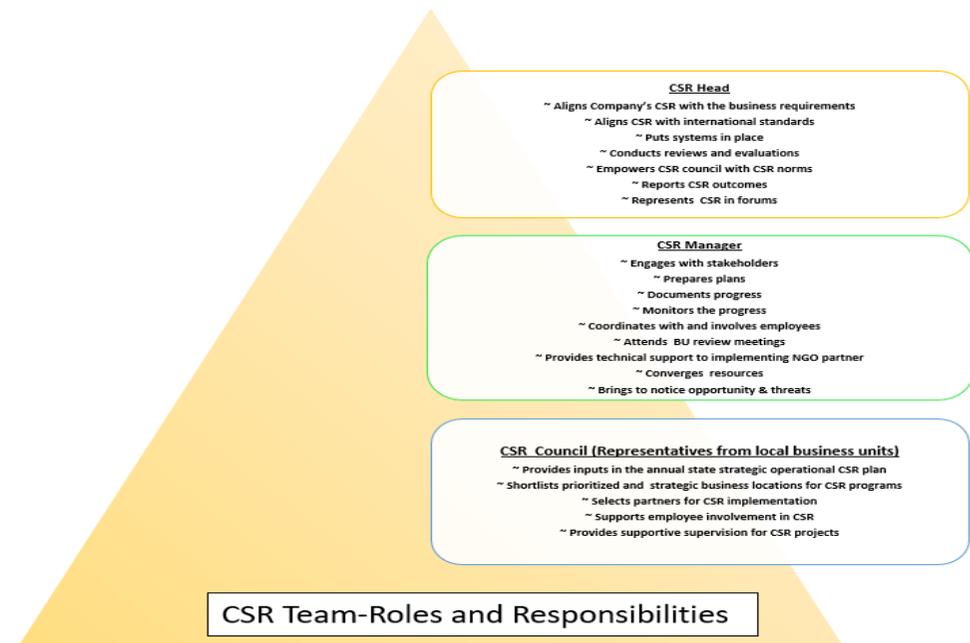

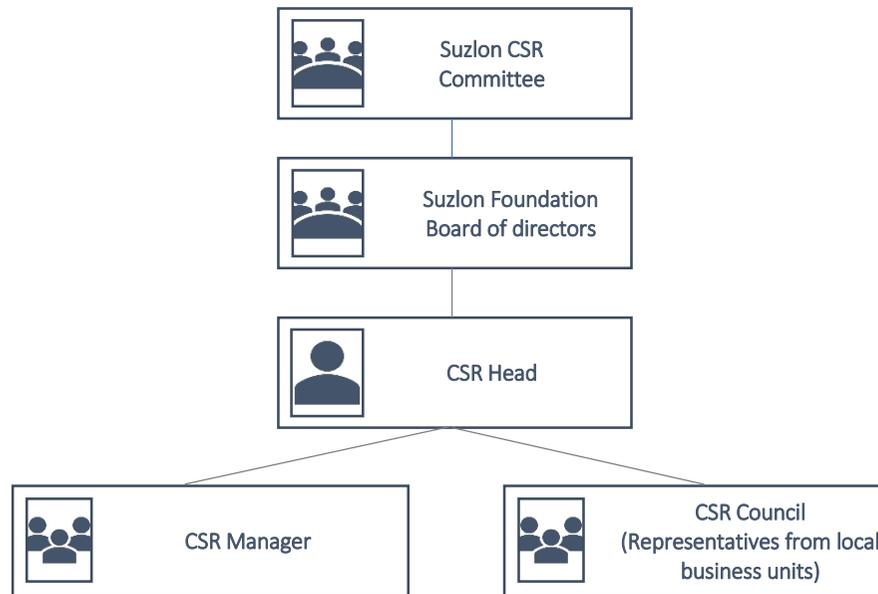

Suzlon is committed to sustainable development and inclusion of all stakeholders in its journey towards sustainability. Community is a critical stakeholder. A grievance mechanism for affected communities is an important process for receiving, evaluating, and addressing any issues, concerns related to Suzlon project. The grievance handling procedure of the organisation can ensure the harmonious environment of the organisation. The purpose of grievance redressal mechanism is have an alternative process to the external dispute resolution processes (legal or administrative systems or other public or civic mechanisms) for the communities in that area. The scope of the community grievance redressal mechanism of Suzlon is restricted to non-commercial grievances and non-political issues. The ownership of the grievance redressal process lies with the State Business Unit Heads and is facilitated by Suzlon Foundation

## Suzlon CSR Committee

Suzlon’s organization structure for CSR implementation is spearheaded by the Suzlon CSR committee. Suzlon Foundation has been delegated to implement the CSR programs according to the highest decision making body on CSR which is the CSR committee. Suzlon foundation board’s mandate is to establish the policies for Suzlon Foundation management and oversight, making decisions on major issues as per the Suzlon CSR committee directive. Suzlon Foundation workings are led and overseen by Head of CSR and Sustainability. Suzlon Foundation consults along with communities, NGOs and Suzlon Business units, plans and sets objectives for CSR initiatives and makes these initiatives known throughout Suzlon group. Suzlon Foundation works with various departments of Suzlon, across India for smooth integration within the business and for implementation of interventions.

10000-50000			
50000-100000		1	1
Above 100000		1	1
<b>Total</b>		<b>2</b>	

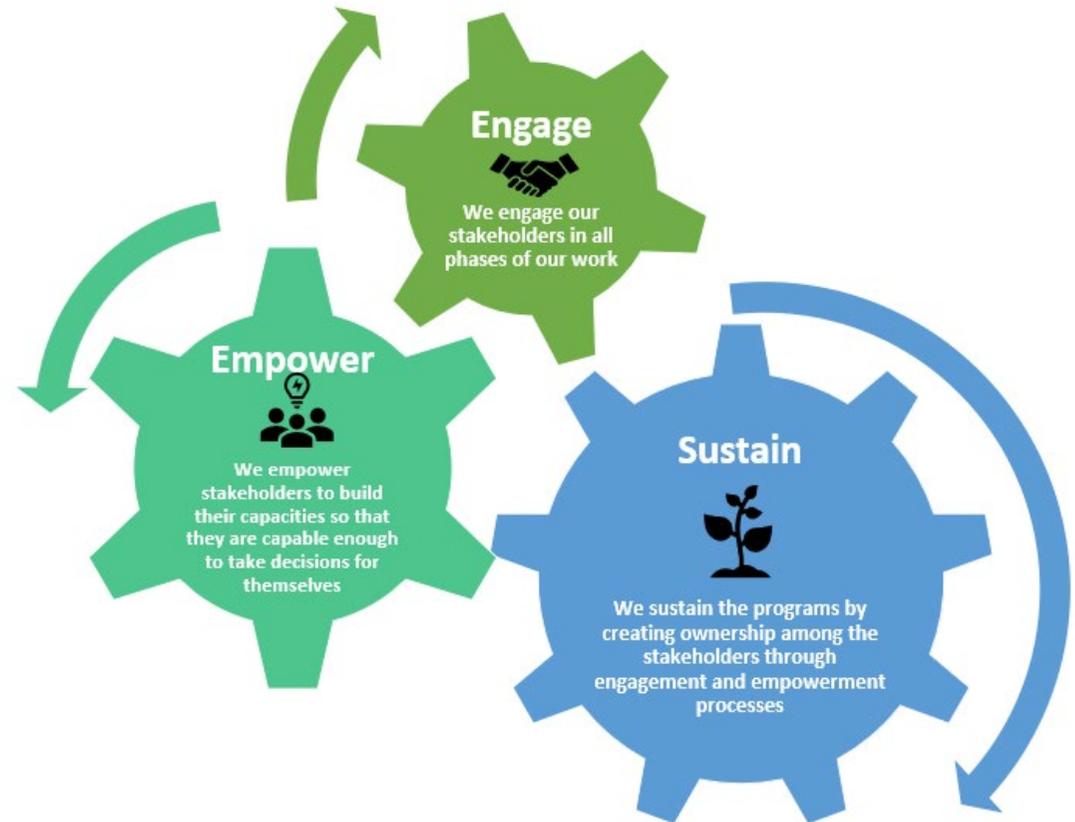

## SUZLON'S CSR STRATEGY

The evolution of Suzlon's CSR strategy has been mapped meticulously over three goals planned to be met. The approach is implemented through a 'Engage-Empower-Sustain' principles of Suzlon Foundation. The impacts of the interventions are envisaged as below.

**The long-term goal** of the Suzlon CSR program is to empower village institutions and bring collectivism in the village. For this Suzlon supports to form, strengthen and institutionalize the community-based village development committees. These VDCs undertake a journey of a 7-stage social engineering and behaviour change process through a systematic handholding with knowledge, awareness, skills and network. Once the VDC reaches 6<sup>th</sup> stage of process Suzlon Foundation exits from the village to focus on the other unmet strategic development needs of the area.

**The mid-term goal** of the CSR program is to address the significant needs of the absolutely disadvantaged like the senior citizens, children under-fives, sparrows, local civic environment, specially abled and vulnerable adolescent girls who will never articulate their needs through the VDC due to the village power dynamics and lack of social awareness. Thus, Suzlon Foundation has initiated the "Zero" programmes across all the locations.

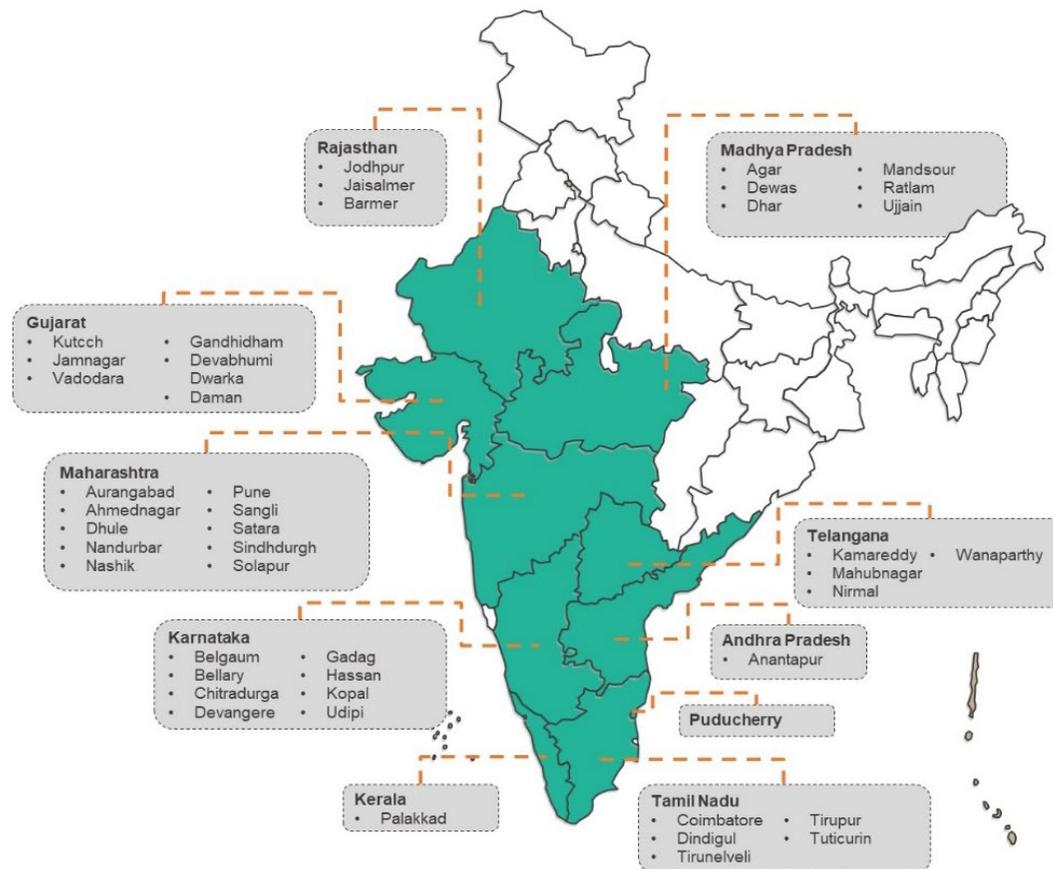

**The short-term goal** of the Foundation is to focus on the immediate requirements of the society by implementing integrated development activities for the community. The interventions carried out are very diverse, unique and customised village depending on needs of the society.

## SUZLON FOUNDATION'S FOOTPRINT IN INDIA

With the implementation of over 20000 CSR activities in FY 2018-19, Suzlon Foundation touched lives in 800 villages from 9 states including Andhra Pradesh, Gujarat, Karnataka, Madhya Pradesh, Maharashtra, Rajasthan, Telangana, Tamil Nadu and Kerala and 2 union territories of Dadra & Nagar Haveli and Pondicherry.

Our operational presence has been shown in the map below.

## STORIES OF SUCCESS: EMPOWERING LIVES

The Suz-Tain CSR model seeks for collaborations to ensure the sustainability and effectiveness of its programs. Suzlon lays special stress to ensure empowerment of the lives they touch. A carefully structured list of activities aimed at empowering beneficiaries lies at the crux of the commendable change that we have brought about. Suzlon takes upon itself to create awareness among villagers via Village Meetings, Federation Meetings, Awareness Camp on Government initiatives, Life skill training, participatory Rural Appraisal ,etc. The Suz-Tain model also provides for the creation of Village Development Committees (VDCs) which comprise of members from the local community. The VDC members are initially assisted in the execution of their meetings for identifying critical problems in their village as well as concretizing solutions for the same. In the year 2018-19, a total of 553 VDCs had received strengthening from Suzlon via a systematic handholding process of 7 stages which gradually empowers VDCs to function on their own.

**782**

**INDIVIDUAL SUPPORTED FOR MICRO ENTERPRISES**

**24**

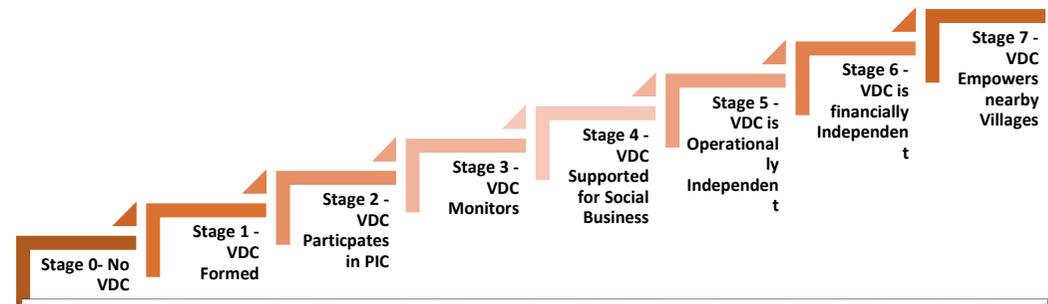

**AWARENESS CAMPS ON GOVERNMENT SCHEMES**

**5179**

**VDC MEETINGS HELD**

**747 SPECIAL ABLED PERSONS SUPPORTED FROM 104 VILLAGES**

The initiatives undertaken had a global alignment to the Sustainable Development Goals (SDGs) of 4,5,6,9,10,12,15 and 16. The thematic area “Empowerment” also aligns itself to ‘People’, one of the 5Ps of Sustainable Development. 20 VDCs in turn had supported Micro Enterprises and 24 Awareness Camps were held where beneficiaries were told about Government Schemes which could add value to their lives and 194 villagers benefited from it

## Exposure Visit of Women Farmers

Under Convergence initiative with Agricultural Technology Management Agency (ATMA) program, Department of Farmers' Welfare and Agriculture Development, Government of MP, Dist. Ujjain, Exposure visit of women farmers was organized on 4<sup>th</sup> August 2018. In the exposure visit, 30 women farmers who are members of Self-help Groups (SHG) and 5 male farmers participated.

The participants visited Krishi Vigyan Kendra (KVK) Ujjain where they were informed about the functioning of KVK, they were also exposed to demonstrations on different varieties of soyabean. The technical information was provided by Agriculture scientists.

Participants also visited a Goat rearing unit. The critical information regarding Goat rearing like fodder, health, vaccination and care was delivered to them. Participants also visited the Vermicompost Unit. Agriculture scientists explained the method of compost preparation with the help of worms and its application in farming. Participants also learnt about the mushroom cultivation method in detail. Through this exposure visit the women participants got motivated to put in efforts to enhance the income from agriculture and allied activities. Having gained knowledge on Mushroom farming, few women farmers are planning to undertake Mushroom farming.

## Vocational Skill Training (Artifacts from Palm Leaves)

Suzlon Foundation in collaboration with NGO Partner CCD organised a skill development training program for women. The program was facilitated by NCDPPD (National Centre for Design and Development). There was a lack of income generation activity for the Village Development Committee in Devarkulam, Tamil Nadu. To address this issue, a 30 day training program was organized to impart knowledge on making artifacts out of Palm leaves.

Mrs. Solaiammal, lives in Devarkulam village with her Husband and four children. Her husband is an agriculture coolie. For the last 20 years she had been directly involved in making palm leaf boxes for her livelihood. Since it's a seasonal activity it is only during the wedding season that she could earn RS.5000 per month. For the rest of the months she remains unemployed. One day through the members of Village Development committee facilitated by SUZLON and CCD, the field staff contacted her and facilitated for her to take the artisans ID card. With their efforts she received the ID card with in two months. In continuation to that during the year 2017 she got an opportunity to attend the 30 days skill development training facilitated by the Handicrafts department. By this training she gained practical knowledge on making new designs.

In the year of 2018-19 a designer from NCDPPD (National Centre for Design and Product Development) came to the VDC of Devarkulam and explained about the requirement of Date Palm bags. As a group they accepted his request and produced 500 bags for supply.

The training made me to enhance my skills and helped me earn more money. I trained other organization's women group etc through CCD's guidance and facilitation. Now I have the confidence to upgrade my family status.

**-Mrs. Solaiammal , Beneficiary.**

## ENSURING GOOD HEALTH

Suzlon Foundation believes that a healthy mind resides in a healthy body. Across our impact villages, we had noticed via surveys that villagers face numerous health issues and challenges, most of which are unidentified and undiagnosed but still effect daily lifestyles. To combat this challenge, Suzlon Foundation aligns itself with Sustainable Development Goal 3 and 6 aiming for “Zero Hunger” and “Good Health and We-Being”. On a wider forum, the thematic area “Health” also aligns to ‘People’ and ‘Prosperity’ of the 5Ps of Sustainable Development. We have undertaken enormous efforts via carefully targeted initiatives like Health Camps, Cataract Screening Camps, Health screening Kits, Awareness on Open Defecation, Kitchen Gardens to assist beneficiaries in developing a healthy way of life.

In the year 2018-19 24760 beneficiaries attended Health Camps organised by Suzlon Foundation. 369 Eye-Screening Camps were conducted in collaboration with Government hospitals. 1350 patients were identified with Cataract and were referred to authorised Medical centres for further treatment and their surgeries were done. 807 persons got better vision through prescription eye glasses. A total of 916 Health camps were conducted including special Health camps for Adolescents and Women. 779 Women benefited from special women’s health camp. Via this intervention, beneficiaries are believed to have saved Rs.500 per women. With our efforts, we have successful initiated the work in 27 villages of converting them to be Open Defecation Free village with community participation, behaviour change communication and linkages with government schemes. 3881 households were supported for establishing Kitchen Gardens at their homes which enabled savings of Rs 1000 per year as well as ensured that beneficiaries get access to organic fruits and vegetables that they have themselves grown. To ensure access to safe and clean drinking water, Suzlon Foundation had tested and treated Tanks and Wells across beneficiary villages and had successfully converted 742075 cum of water to be fit for consumption. Under the Zero Malnutrition program in 8 villages of Madhya Pradesh 567 under 5 children were screened for malnutrition using the WHO prescribed MUAC (Mid Upper Arm Circumference) Tape and 113 were found to be malnourished out of which 33 severe acute malnourished (SAM) children were referred to the NRC( Nutrition Rehanbilitation Centre) for further aggressive treatment, 80 moderate acute malnourished (MAM) children were referred to the Anganwadi (rural child nutrition centre). Out of the SAM children referred 5 have been cured and 25 are improving.

- Vidhya Mahajan, VDC President

## Sanitary Napkin Depot

Suzlon & Nalanda supported for Sanitary Napkin pad selling unit, we have gave name of shop- Aamhi Bahinii. First Suzlon foundation provided me 4 boxes of sanitary napkin. Till date I have earned INR 16640 from selling sanitary napkins.

## Educating Rural Women about Menstrual Hygiene

Bhuj is a village 45 KM away from the District Headquarter, Jaisalmer, and the only primary facilities available at Bhuj are Anganwadi, School & Electricity. However, these facilities do not have a good capacity and are still lacking in some aspects.

HLFPPT's GNM, Mrs. Manohari, organized a group meeting with the women of Bhuj on 28/05/2018. The meeting mainly aimed at educating the women about maintaining hygiene during the menstrual cycle. It is extremely shocking that even though menstrual hygiene requires a lot of attention, it is considered as a taboo to speak about it due to social norms; society think of it as an 'unclean' topic hence information is passed around only in whispers. A woman spends approximately 2,100 days menstruating which is equivalent to almost six years of her life! Maintaining hygiene during this period is extremely vital because ignorance during these 5 days in a month can lead to tremendous harm. Even more so when a general cloth is being used in place of sanitary napkins because of non-availability of necessary product and its cost.

Mrs. Manohari boldly educated them about important measures for hygiene maintenance along with Sanitary Napkin and its advantage, uses and disposal techniques. We will seek to break these unjustified social norms and educate the masses with more such sessions.

Suzlon Foundation in collaboration with NGO partner Nalanda helped Mrs. Vidya Mahajan set up a Sanitary Napkin depot in Bhone Village near Dhule Area, Maharashtra.

It was noticed that there was a lack of awareness on personal hygiene among women in the village and sanitary napkins were not accessible for women of Bhone village. To bring about a change in this practice, the women's field team spread awareness among the village women to use sanitary napkins which they were providing at a marginal rate.

Suzlon Foundation initiated the provision of sanitary napkins with a discounted rate rate for sales in the village. The women's Self-Help Group reached out and increased their sales. Initially they were provided 4 boxes of Sanitary Napkins for sale. Mrs. Mahajan has earned Rs.16640 till date from the sale of sanitary napkins. She has also christened her shop to be called 'Aamhi Bahinii' which means 'We Sisters'.

## ENHANCING SUSTAINABLE LIVELIHOODS

In our journey towards creating shared value and providing sustainable solutions, Suzlon Foundation lays particular emphasis on activities that empower people to enhance their livelihood. We aim to provide support to beneficiaries so as they can recognize their potential and exploit available

---

### 4113 FARMERS

TRAINED IN AGRICULTURE

means to sustain their lifestyles. The Suz-Tain model addresses the livelihood needs of the community via a dedicated number of 119 activities and interventions which cover a vast majority of issues and development needs by conducting agriculture-based livelihood programs, trainings and demonstrations for youth, women and farmers. Vaccination camp for cattle are conducted to increase their productivity to an extent where animal husbandry can act as an additional source of sustainable income.

---

### 1993 YOUTH

TRAINED IN VARIOUS SKILLS

With global warming and climate change touching its peak, we at Suzlon Foundation recognize the hardships that an average Indian farmer goes through being dependent on the vagaries of nature. The interventions planned and undertaken directly impacts the financial capital of the village and contributes to Sustainable Development Goal no 1, 2, 10 and 13. The thematic area of "Livelihood" also aligns to 'People' and 'Prosperity' of the 5Ps of Sustainable Development.

---

### 905 WOMEN

TRAINED IN VOCATIONAL COURSES

**Agriculture and Livestock Based Livelihood Achievements:** Special focus has been laid on enhancing lives of farmers via choice set of initiatives. 4113 farmers were trained on agricultural practices to enhance their yield. 678 farmers benefitted from demonstration on composting wet waste. In states of Maharashtra and Madhya Pradesh, 635 farmers were trained on growing nutritious green fodder. 1601 farmers were benefitted from Kisan Pathshalas (Farmer-field Schools) and 544 farmers were given information and access to high yielding variety of seeds to improve the quality of their produce. In a parallel initiative, we took a green step forward by training 360 farmers on organic farming methods and benefits. 272 animal health camps were organized and 172244 animals were vaccinated preventing epidemics and loss of income.

## Revolving Fund Supports Milk Production

Kasturben Kanadgar Ramdati joined the 'Avad Swashray Juth' (SHG group) one and a half year ago. She has a farm, but she had no understanding of how to conduct business in order to increase income. However, she attended a Farmer Exposure visit to Junagarh to observe how they practiced animal husbandry along with other agriculture practices. There, she understood that animal husbandry and farming are complementary to each other. So, upon returning, she borrowed a loan from the revolving fund (Rs. 20000) provided by Suzlon Foundation, a loan of Rs.10000 from the SHG and used Rs. 40000 from her own savings to purchase 2 Jersey cows worth Rs. 70000.

Presently, the cows provide her with 15 liters of milk every day which she sells. Kasturben gets around Rs. 700 every day from selling the milk out of which Rs. 300 is used to return the loans. She is financially better off, estimated Rs 9000-10000 increase in income and for this, she is thankful to the SHG, Suzlon Foundation and GVT.

## Community Seed Bank

Suzlon Foundation in collaboration with the NGO partner NIDAN Sanstha and the residents of Sujan Nagar, Rajasthan came up with a novel and sustainable solution for the farmers of Sujan Nagar.

Villagers of Sujan Nagar did not have access to good quality seeds as they were either unaffordable or unavailable at the local markets. NGO Partner NIDAN Sanstha investigated into the matter and after much deliberation set up a Community seed Bank on pilot basis. NIDAN Sanstha provided 10 Kg seed to 10 people in 2018-19 with a contribution of Rs 100 per head. After getting thriving crops from these seeds, each farmer had to give 10 kg of seeds back to the VDC which the VDC in turn will now provide seeds to 10 more farmers. By this method, farmers can get the seed in time and sow in their field in time to get better crop yield.

- Mr. Pappu Singh, Beneficiary

This seed bank system is good and if this works then each and every farmer's need will get benefited at village level

## IMPACTING ENVIRONMENT

WATER CONSERVED

---

**18 villages**

SEEDS BROADCASTED

metre water has been conserved, 742075 cubic meter of water is made potable for drinking, 77 drinking water tanks were installed and 761 water storage tanks have been constructed. 28 families were supported for household storage of water. Overhead water tanks were cleaned benefiting 280 families. 127 Swachata hi Seva program was undertaken which saw a participation of 7543 persons. Waste disposal, the collection, processing, and recycling or deposition of the waste materials of human society is very crucial to maintain a healthy ecosystem. Suzlon practices waste management and disposal in its business to reduce environmental impact.

Activities also include waste recycling, composting and converting waste into biogas. This reduces drudgery for women by making their kitchen smoke free. Under “Zero Sparrow Death” an attempt was made to save sparrow in summer, by installing bird water troughs.

Suzlon is working towards building harmony with nature. Over the years significant measures have been taken to reduce the impact by giving back to the environment. In order to ensure that we have designed best practices and collaborated with internal and external stakeholders. Our Suz-Tain model takes into consideration the issues about soil water conservation, waste disposal and bio-diversity in the village. Sustainable Development Goal No 2, 3, 6, 13 and 15 are aligned with the initiatives taken to address these environmental issues benefits and the natural capital of the village. The Thematic area “Environment” also aligns to ‘Planet’ of the 5Ps of Sustainable Development.

In FY 2018-19, 85859 trees were planted by Suzlon Foundation which consisted of over 61 local species. In 18 villages seeds were broadcasted. Each of these plantations is backed with a survival plan and its monitoring. The water conservation activities like desiltation of ponds, constructing circular contour cum trenches (CCT) were conducted. 544635 cubic

## Innovating Sustainable Models Locally for Conservation of Birds

Birds are the important creatures of environment and have a major role in pollination processes of plants. However, due to habitat loss, birds are affected and some die as well. During the Sustain meet for cross learning held at Pune, a model of bird nest had been presented. This was discussed and shared among the community.

To play our part in conserving the birds, we had also installed water troughs for birds in all project villages with the support of students and community members last year.

The two activities motivated the students and VDC members; they requested ADISIL team to organize a workshop to make bird nests for this year as well to support birds.

Three workshops were organized for the students in Kokkarakalvalasu, Salarapatti and Naickanur villages and in the workshop 30 participants, including VDC members, participated and were trained on how to make bird nests with the locally available resources. We will surely organize such workshops again in all project villages every year to make sustainable models on bird water troughs, nest and feeder for conservation of birds.

## Anicut Restoration

Asayach is a village located in Rajasthan, about 30kms from Jaisalmer. There was a Anicut built on a vast expanse of public land which provided nourishment to 50-60 thousand trees , local residents and animals.

For a while, due to neglect, the Anicut was not functional and it did not store enough water. Due to this, trees dried up and their numbers started decreasing drastically.

Coordinators of NGO partner NIDAN approached the village and prepared a plan to save and provide water to 50-60 thousand plants through repairing & rebuilding the Anicut. Today the maintenance is taken up by the Village Development Committee with the support of NIDAN & SUZLON Foundation.

- Mr. Ridhmal Singh, Beneficiary

Today the scenario of the area has changed & plants have become alive and are more green due to Anicut renovation.

## PROVIDING QUALITY EDUCATION

**4**

CHILDREN SCHOOL CLUBS

---

**150**

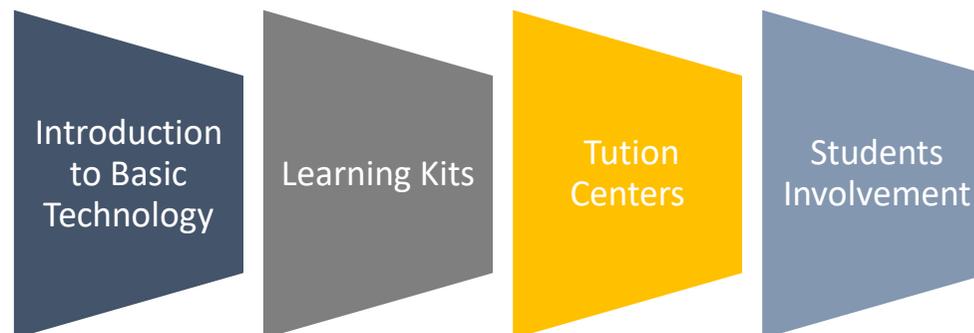

ENVIRONMENT & SOCIAL  
AWARENESS PROGRAMS

India has more than 50% of its population falls below the age of 25. Providing quality education to children and youth is crucial. Moreover, higher education is strongly related to better career opportunities, better earnings, good health and positive wellbeing. Suzlon understands the importance of providing better education and aims to contribute and support in grooming youth to become responsible citizens. The activities are in line to promote the indicators of Sustainable Development Goal (SDGs) 4,5 and 10. The thematic area of "Education" consists of activities which are aligning to People, Prosperity and Peace of the 5Ps of Sustainable Development.

In FY 2018-19, 571 schools were supported by Suzlon in different ways. For enabling various employable skills, students were introduced to basic technology (IBT) course.

The course was designed to train students with skills which will help them in finding employment so that they can support their families in future. Many students were provided with learning kits, which supported in their studies. Also, 118 tuition centres are opened in Tamil Nadu for students to help them with the studies and

hence, score well in examinations. 4 Children School Club were formed to develop collaborative learning and leadership quality among children and youth. 25583 school awareness programs were conducted through collaborative efforts to stimulate the environment and social consciousness among children and youth. 55770 students are benefitted by the various initiatives taken under providing quality education focus area. Two digital learning units were installed and 500 children benefited from it.

## IBT (Introduction to Basic Technology) Students Get

In IBT Engineering department, students were introduced to construction & plastering activities under civil work activities. In Valasang, the school had requirement to plaster the school gate wall.

The Head Master decided to give this work to IBT students. Accordingly under the guidance of IBT instructor, IBT students plastered a wall of approx. 400 sq feet. In this activity students were introduced to the process of preparing mortar, plastering, measuring, marking, costing, etc. The cost of service students rendered was Rs. 6000.

- Devi Santhiya, Student Beneficiary

## Tuition Centres

To provide quality education, Suzlon has set up 120 centres in villages in and around Chenarkulam, Tamil Nadu. Around 3000 students from low income families who have no learning environment at home are studying in these centres. Panchayat Presidents, Panchayat secretary and VDC Members from all the villages have been involved in this activity. Financial support like Honorarium to the Tuition Centre Teacher/Volunteer has been supported by SF. Also, Educational Books and other stationary items for the centre have been supported by SF. The following initiatives have helped to facilitate, strengthen and improve the education standard of the students from Govt. Schools, enhance their skills through various initiatives and extracurricular activities and create value system and cultures among the students.

The tuition support provides me a space for completing my home works, learn daily lessons and enables me to continue my education with hope.

## IMPROVING CIVIC AMENITIES

Suzlon encourages various initiatives like improving quantity and quality of drinking water, availability of solar energy, scholastic infrastructure and sanitation and hygiene. This is one such approach taken for contributing efforts towards developing civic amenities of villages.

### ZERO DARKNESS PROGRAM

221

Villages supported with solar

We have developed cost-effective and sustainable approaches for the development of the village. Our civic amenities focus area is aligned with SDGs 1,6, 9, 10 and 11. The thematic area also pertains itself to 'People', 'Planet' and 'Partnership' of the 5Ps of Sustainable Development.

In FY 2018-19, 221 villages were targeted for zero darkness and 373 households' have been electrified by facilitating the arduous process or have been provided solar home UPS and lanterns. 749 toilets were constructed to uplift the society and enable safety and dignity of women. 2 schools were enabled with solar digital learning system.

## Special Aids Manufacturing

To create employment opportunities for specially abled Suzlon Foundation (SF) has set up manufacturing unit of Tricycles and Wheelchairs for Divyangjans (persons with special need) and challenged persons having poor economic background in Bhuj District, Gujarat.

10 Machineries were supported by Suzlon Foundation (SF). Safety training and safety kits are provided regularly by SF. Now it has successfully developed to a self-sustained unit providing employment to 5 Divyangjans and also presently manufacturing 50 (Tricycles/ Wheel chairs) units per month. Till now 1500 units have been manufactured in Bhuj unit and being supplied to Government of Gujarat (GoG) and other corporate, trusts and donors for free distribution to Divyangjans.

SF has helped conduct safety training for our employees engaged in production. Recently, SF helped in developing chain guard for safety of Divyngs using the Tricycle.

It is a great opportunity Suzlon Foundation provided us.

## Water Tank Solves Everyday Problems

Rajamani has been living with her husband, Rajaiah in Demi Kalan Village, Telangana, for the past 20 years. Her husband is a retired constable and they have three children, 2 daughters and a son. Her son is physically handicapped, and the eldest daughter is married. So, the youngest daughter has to bring water from a different colony which is really far away. This is too difficult. A water tank was constructed near to their house by Suzlon Foundation and NGO Partner Padmapani. The water problem is now solved for Rajamani and others like her residing in the area. She feels thankful to Suzlon Foundation and Padmapani Society for providing this facility in her colony.

## EMPLOYEE VOLUNTEERING

To help build a good team and enhance employee satisfaction level

To go beyond internal barriers and enhance inter-departmental cooperation

To improve stakeholder relationships

To help enhance employee retention by boosting morale, pride and trust in the company

To improve employee health and welfare

To generate support for CSR initiatives and contribution for responsible behaviour

Suzlon encourages employee engagement and aims to foster a sense of social commitment for stakeholders through various volunteering programmes and projects supported by CSR team. We at Suzlon believe that employees are a key player in structuring and implementation of company's CSR goals. Empowering employees to use their skills and resources which gives them an ambitious advantage in professional world. Also, it can be used for implementing a remarkable employee engagement program.

There has been a huge transformation in employee volunteering at Suzlon which was once only donation of time with passive participation and monetary donation and now employees are actively participating in CSR projects and linking donations through pay roll. The employee volunteering for CSR projects is now well structured and integrated into the business excellence awards. At Suzlon, business excellence award is annual departmental and geographical excellence competition between business units. For this award business achieve scores based on their participation into CSR activities. There are 9 parameters with indicators, measures, scores and trackers. Some business teams have considered CSR as one of the key result areas (KRAs) for key business personnel.

We at Suzlon, provide an employee volunteering policy which provides 2 working days equivalent available to all employees for participating in CSR

activities during business hours. The Suzlon volunteers have given major ideas that have now been converted to CSR projects. The responsible purchasing from needy NGOs and groups have increased. The outcome of their donations and volunteering efforts are shared with all the employees of the company to inspire more volunteers. Employee satisfaction survey is conducted every year, and in the following year the inputs are incorporated. The employee volunteering data is used to confer volunteering awards to the highest scoring volunteers and the others work is appreciated. In the Kerala floods 650 employees contributed Rs 8 lakhs and supported 610 flood affected households. 3150 flood affected persons received support. 327 women and children were provided with clothes and 105 flood affected school children benefited from school bags and notebooks

The major results of employee participation are

- 1) Some volunteers have inspired other Suzlonians to volunteers
- 2) Volunteers have started enjoying their work at Suzlon and have requested to include them more in CSR activities.
- 3) Volunteers have also requested if they can join in with their families at the CSR activity sites.
- 4) Suzlon has been certified as a great place to work

The employee engagement survey done by HR has also shown increasing employee satisfaction at work. In FY 2018-19, 6679 Suzlonians had contributed their time and efforts towards impactful CSR activities.

SUZLON FOUNDATION

FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

TOGETHER WITH AUDITORS' REPORT

SNK & CO.

CHARTERED ACCOUNTANTS

**Independent Auditor's Report**

To,  
**The Members of, Suzlon Foundation**  
**Report on the Financial Statements**

**Opinion**

1. We have audited the accompanying financial statements of **Suzlon Foundation, ("the Company")** which comprises the Balance Sheet as at March 31, 2019, the Statement of Income and Expenditure for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and its excess of Expenditure over Income for the year ended on that date.

**Basis for Opinion**

2. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Responsibility of Management for the Financial Statements**

3. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

#### **Auditor's Responsibility for the Audit of the Financial Statements**

4. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### **Report on Other Legal and Regulatory Requirements**

5. The Companies (Auditor's Report) Order, 2016 will not be applicable to this company as the Company is licensed to operate under section 8 of the Companies Act, 2013.

#### **As required by Section 143(3) of the Act, we report that:**

- a. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- b. The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- c. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- d. On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- e. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- f. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company does not have any pending litigations which would impact its financial position.
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

---

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **Suzlon Foundation** ("the Company") as of March 31, 2019, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3)

provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

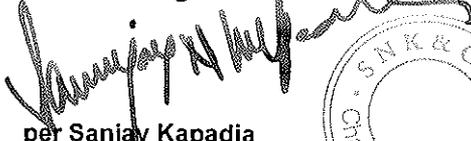

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Suzlon Foundation

(A Company Limited by Shares under Section 8 of the Companies Act, 2013)

### Notes to the financial statements for the year ended March 31, 2019

All amounts are in Indian ₹, unless stated otherwise

---

#### 1. Company Information

Suzlon Foundation ('the Company') was incorporated under section 8 of the Companies Act 2013 on December 27, 2007.

The Company is established with the object of carrying out welfare and charitable activities in relating to rehabilitation, health and medical, hygiene, nutrition, education, civic amenities, infrastructure, livelihood skills, climate changes and global warming resolution initiatives.

#### 2. Basis of preparation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013 read with Companies (Accounts) Rules 2015 as amended. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

#### 3. Summary of significant accounting policies

##### a. Use of estimates

The presentation of financial statement in conformity with the generally accepted accounting principles requires estimates and assumptions to be made that may affect the reported amount of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ with those estimates.

##### b. Revenue recognition

Donations are recognised as income as and when it is received by the company. The interest income is recognised in books on accrual basis of accounting.

##### c. Property, plant and equipment ('PPE')

Property, plant and equipment ('PPE') are stated at cost, less accumulated depreciation. Cost includes all expenditure necessary to bring the asset to its working condition for its intended use.

##### d. Depreciation

Depreciation on property, plant and equipment ('PPE') is calculated on the written down value method ('WDV') based on the useful lives and residual values estimated by the management in accordance with Schedule II to the Companies Act, 2013. The identified components are depreciated separately over their useful lives; the remaining components are depreciated over the life of the principal asset.

The Company has used 3 years of life to provide depreciation on its Property, plant and equipment ('PPE').

## Suzlon Foundation

(A Company Limited by Shares under Section 8 of the Companies Act, 2013)

### Notes to the financial statements for the year ended March 31, 2019

All amounts are in Indian ₹, unless stated otherwise

#### e. Employee benefits

Retirement benefits to employees comprise of provident fund, gratuity and leave encashment under the schemes of the Company.

Defined contributions to provident fund are charged to profit and loss account of the year when the contributions to the respective funds are due. There are no other obligations other than contribution payable to the respective statutory authorities.

The Company has taken a Group Gratuity cum Life Assurance Policy from Life Insurance Corporation of India. The yearly contribution as determined by the LIC on actuarial basis under this policy/ scheme has been paid during the Financial Year and debited the same to Profit & Loss Account.

Leave encashment is accounted on actual payment basis.

#### f. Provisions, contingent liabilities and contingent assets

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

#### g. Taxes

Provision for income tax and deferred tax has not been made in accounts, as the Company has been recognised and registered under section 2(15) and section 12-AA of the Income Tax Act, 1961.

## WAY FORWARD

The progress made so far in collaboration with stakeholders has lighted up the path for the journey ahead for Suzlon Foundation. It is clear that as we continue the strategy of empowering the Village development committees and facilitate their movement from one stage to another we will add zero programs as relevant to combat the strategic needs that emerge from the community needs, the national agenda, the wind energy sector, the grassroots NGO partners, other for and non-profits in the arena. The Zero darkness, Zero cataract, Zero Garbage, Zero dependency, Zero Sparrow deaths initiatives will continue and the Zero malnutrition program will be enhanced. From our stakeholder consultations the need to address drought issues from water scarcity is major and we will focus on it through the Zero Drought program. The other issue is poor soil quality resulting in low agricultural productivity which we will address through the Zero Chemical program. We will continue with the collaborative and convergence strategies to make each rupee reach an extra mile while avoiding duplication of efforts. Employee volunteering will be enhanced and the environment will continue to be a major focus for Suzlon CSR.
